

*Quick Start Guide*

# **5.8 GHz Corded/Cordless Telephone/Answering System E5909B**

---

**with Caller ID & Call Waiting**

---

# Installation & setup

After battery installation, place the cordless handset in the charger and allow to charge for at least 16 hours before use. You can keep the battery charged by returning the cordless handset to the charger after each use. When the battery is fully depleted, a recharge takes about 12 hours. The average talk time on a fully charged battery is about five hours depending on environmental conditions, and the standby time is approximately five days.

Press in and downward on the tab to open the battery compartment cover.

Plug the battery connector into the handset.

Place the battery pack and wires in the compartment.

Slide battery compartment cover up until it clicks closed.

Plug power adapter into jack on underside of charger as shown, then plug into an electrical outlet not controlled by a wall switch.

Plug the large power adapter into an electrical outlet not controlled by a wall switch.

Plug long telephone line cord into telephone jack.

Place handset in charger for at least 16 hours before first use.

**Caution:** Use only the supplied rechargeable battery pack or AT&T replacement battery model 3301 (SKU 91076. Part number 80-5071-00-00).

Plug handset cord into handset and jack at the bottom of the base.

## NOTE:

1. Use only the power cord supplied with this product. If you need a replacement, call 1 (800) 222-3111. In Canada, call 1 (866) 288-4268.
2. Be sure to use an electrical outlet not controlled by a wall switch.

# Quick reference guide

## Cordless Handset

### SELECT/TRANSFER

Press to store a programming option. During a call, press to transfer a call between cordless handsets.

### CID (volume down)

When phone is idle, press **CID** to display Caller ID information.

While entering names or phone numbers, press to delete last character entered. While programming, press to change menu item or value.

During a call, press **CID** to adjust listening volume.

### PHONE/FLASH

Press to make or answer a call.

During a call, press to receive an incoming call if Call Waiting is activated.

### HOLD

Press to place a call on hold. Press again to resume your call.

Press to customize the handset's operation.

During a call, press to switch to another channel if there is interference.

### MENU/CHAN

### DIR (volume up)

When phone is idle, press **DIR** to display Directory entries.

While entering letters in names, press to advance or press twice to enter space.

While programming, press to change menu item or value.

During a call, press **DIR** to adjust listening volume.

### OFF/CLEAR

During a call, press to hang up.

While using menus, press to cancel an operation, back up to the previous menu, or exit the menu display.

### INT/DELETE

While phone is idle, press to page base or press and hold to delete all Caller ID entries.

While a Caller ID entry is displayed, press to delete displayed entry.

### REDIAL/PAUSE

Before dialing, press to display last number called.

While dialing or entering numbers into your directory, press to insert a 4-second dialing pause.

**NOTE:** For more information, please refer to the user's manual.
