Before you begin

This cordless telephone operates with the maximum power allowed by the Federal Communications Commission (FCC). Even so, this handset and base can communicate over only a certain distance — which can vary with the locations of the base and handset, the weather, and the construction of your home or office.

If you receive a call while you are out of range, the handset might not ring — or if it does ring, the call might not connect when you press PHONE. Move closer to the base, then press PHONE to answer the call.

If you move out of range during a phone conversation, you might hear noise or interference. To improve reception, move closer to the base.

If you move out of range without pressing OFF, your phone will be left off the hook. To hang up properly, walk back toward the telephone base, periodically pressing OFF until the call is disconnected.

Parts checklist

Remember to save your sales receipt and original packaging in case you ever need to ship your telephone for warranty service. Check to make sure the telephone package includes the following:

- Telephone handset
- Belt clip
- Power adapter
- Handset charger
- Battery
Battery & charger installation

After installation, place the handset in the charger and allow the battery to charge for 15 hours before use. You can keep the battery charged by returning the handset to the charger after each use. When battery power is fully depleted, a full recharge takes about 12 hours. Average talk time on a fully charged battery is about eight hours depending on environmental conditions, standby time is approximately four days.

Press tab to open battery compartment.
Insert supplied battery.
Then replace compartment cover.

Low battery indicator
Return handset to base or charger to recharge when this symbol flashes. (Handset will beep when battery is low.)

Caution: Use only supplied rechargeable battery or AT&T replacement battery model 2420 (SKU 00578. Part number 80-5542-00-00).

Plug power cord into jack on underside of charger, then plug transformer into electrical outlet.

Light remains on while battery is charging.
Registration

Before using a new E560-1 handset, you must register it with the E5633/E5630/E5603B/E5600 base. During registration, you must enter the 15-digit ID number of the telephone base. The Base ID is located on the bottom of the base unit.

The handset provided with your E5600/E5630 is automatically registered as Handset 1. Additional handsets will be assigned numbers in the order they are registered (Handset 2, Handset 3, or Handset 4). You can register a maximum of 4 handsets.

The E5633/E5603B has 3 handsets automatically registered as Handset 1, 2 and 3. You can register one additional handset, which will be assigned number 4.

The E5634B has 4 handsets automatically registered as Handsets 1, 2, 3, and 4. You cannot register any additional handsets to the E5634B.

To add a new handset:

- Make sure your handset batteries are properly installed and charged.
- Your handset will display “SEARCHING...”.
- Press and hold the SELECT key until the handset displays “ENTER BASE ID”.
- Enter the 15-digit Base ID number from the bottom of the base unit. (E5633/E5630/E5603B/E5600)
- Press SELECT to accept the code and complete registration.

NOTE: If an invalid base ID code is entered you will hear an error tone and the handset will continue to display “ENTER BASE ID”. To make corrections while entering the code, you can erase digits by pressing the DELETE key.

Once a valid base ID code is entered and accepted by the base unit, the new handset will be assigned the next available handset number (Handset 2, Handset 3, or Handset 4). You can register a maximum of four handsets per base unit.
Replacing a Handset

If you are replacing a handset on a system that has the maximum number of handsets registered (4), or wish to change the assigned handset number of your registered handsets, you must first de-register the handsets, then re-register all handsets.

De-Register All Handsets

• Unplug the power supply from the base unit.
  (E5634B/E5633/E5630/E5603B/E5600)

• Remove all handsets from the charge cradles and base.

• Plug in the power supply while pressing and holding the HANDSET LOCATOR button.

• Continue pressing HANDSET LOCATOR until the IN USE, CHARGING (E5634B/E5633/E5630/E5603B/E5600) and MESSAGE WAITING (E5603B and E5600 only) indicators are lit. (this could take up to 10 seconds).

• Release the HANDSET LOCATOR button.

• All Handsets will display:

Once the base indicators turn off (up to 30 seconds), the handsets have been de-registered from the base, and can now be re-registered (see page 5).
Re-Registering a Handset

You can re-register handsets after de-registering from the base. Or you can re-register handsets to a new base unit, if you have replaced your base unit for any reason.

To re-register a handset:
• Make sure your handset batteries are properly installed and charged.
• Your handset will display “SEARCHING...”.
• Press and hold the SELECT key until the handset displays “ENTER BASE ID”.
• Enter the 15 digit Base ID number from the bottom of the base.
• Press SELECT to accept the new code and complete re-registration.

To re-register a handset to a new base unit:
• Make sure your handset batteries are properly installed and charged.
• Unplug the old base unit.
• Install the new base unit by plugging it into the electrical outlet and phone jack.
• Your handset will display “SEARCHING...”.
• Press and hold the SELECT key until the handset displays “ENTER BASE ID”.
• Enter the new 15-digit Base ID number from the bottom of the new base unit.
• Press SELECT to accept the new code and complete re-registration.

NOTE: If an invalid base ID code is entered you will hear an error tone and the handset will continue to display “ENTER BASE ID”. To make corrections while entering the code, you can erase digits by pressing the DELETE key.

Once a valid base ID code is entered and accepted by the base unit, the new handset will be assigned the next available handset number (Handset 1, Handset 2, Handset 3, or Handset 4). You can register a maximum of four handsets per base unit.
Belt clip & optional headset

Install belt clip as shown below if desired.

For hands-free telephone conversations, you can use any industry standard 2.5 mm headset (purchased separately). For best results use an AT&T 2.5 mm headset.

Snap belt clip into notches on side of handset. Rotate and pull to remove.

Plug 2.5 mm headset into jack on side of handset (beneath small rubber cap).
Quick reference guide

For complete instructions, please refer to the manual provided with your E5634B, E5633, E5630, E5603B or E5600 telephone.

Handset
