Quick start guide

TL72108/TL72208/
TL72308/TL72408
5.8 GHz cordless
telephone/answering system
with caller ID/call waiting
If you subscribe to high-speed Internet service (Digital Subscriber Line - DSL) through your telephone lines, you must install a DSL filter between the telephone base and the telephone wall jack (see page 2). The filter will prevent noise and caller ID problems caused by DSL interference. Please contact your DSL service provider for more information about DSL filters.

Your product may be shipped with a protective sticker covering the handset or telephone base display - remove it before use.

For customer service or product information, visit our website at www.telephones.att.com or call 1 (800) 222-3111. In Canada, dial 1 (866) 288-4268.

Avoid placing the telephone base too close to:

- Communication devices such as: television sets, VCRs, or other cordless telephones.
- Excessive heat sources.
- Noise sources such as a window with traffic outside, motors, microwave ovens, refrigerators, or fluorescent lighting.
- Excessive dust sources such as a workshop or garage.
- Excessive moisture.
- Extremely low temperature.
- Mechanical vibration or shock such as on top of the washing machine or work bench.

You must install and charge the handset battery before using the cordless handset.
Telephone base and charger installation

If you subscribe to high-speed Internet service (Digital Subscriber Line - DSL) through your telephone lines, you must install a DSL filter between the telephone base and the telephone wall jack. The filter will prevent noise and caller ID problems caused by DSL interference. Please contact your DSL service provider for more information about DSL filters.

Install the telephone base as shown below.

1. Plug the small end of the larger power adapter into the power jack at the bottom of the telephone base.

2. Plug one end of the telephone line cord into the telephone jack at the bottom of the telephone base.

3. Route cords through slots.

4. Plug the large end of the larger power adapter into a power outlet not controlled by a wall switch.

5. Plug the other end of the telephone line cord into a telephone jack.

Charger installation

1. Plug the small end of the smaller power adapter into the jack on the underside of the charger, then route the cord through the slot as shown.

2. Plug the large end of the smaller power adapter into a power outlet not controlled by a wall switch.

**IMPORTANT INFORMATION**

1. Use only the power adapter supplied with this product. To order a replacement power adapter, visit our website at [www.telephones.att.com](http://www.telephones.att.com), or call 1 (800) 222-3111. In Canada dial 1 (866) 288-4268.

2. The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.
Battery installation & charging

Install the battery as shown below. After installing the battery, you can make and receive short calls, but replace the handset in the telephone base or additional charger when not in use. For optimal performance, charge the handset battery for at least 16 hours before use. When fully charged, the handset battery provides approximately five hours of talk time or three days of standby time.

If the battery is depleted, it may take approximately four minutes to charge the handset before it can resume screen display. The screen will continue to display **LOW BATTERY** until the battery has charged for approximately one hour.

**Step 1**
Plug the battery securely into the plug inside the handset battery compartment, matching the color-coded label.

**Step 2**
Insert the supplied battery with the label **THIS SIDE UP** facing up as indicated.

**Step 3**
Align the cover flat against the battery compartment cover, then slide it upwards until it clicks into place.

**Step 4**
Charge the handset by placing the handset face up in the telephone base or in the additional charger. The **CHARGE** light will be on when charging.

**IMPORTANT INFORMATION**

Use only the battery supplied with this product. To order a replacement or spare battery (AT&T model 27910, part number 89-0099-00-00) or equivalent, visit our website at [www.telephones.att.com](http://www.telephones.att.com), or call **1 (800) 222-3111**. In Canada dial **1 (866) 288-4268**.
**Quick reference guide - handset**

**CHARGE**

On when the handset is charging in the telephone base or charger.

**CID**

Press to display caller ID information.

**PHONE/FLASH**

Press to make or answer a call. During a call, press to receive an incoming call if call waiting is activated.

**REDIAL/PAUSE**

Press to view redial memory. While entering numbers, press and hold to insert a dialing pause.

**MUTE/REMOVE**

During a call, press to mute microphone. While reviewing the caller ID history, press to delete an individual entry, or press and hold to clear the caller ID history. While predialing, press to delete digits.

**SPEAKER**

Press to turn on the handset speakerphone. Press again to resume normal handset use.

**MENU/SELECT**

Press to enter the menu. While in the menu, press to select an item or save an entry or setting.

**VOLUME ▲▼**

Press the volume key on the side of the handset to adjust listening volume. Each press of the button increases or decreases the volume.

**OFF/CLEAR**

During a call, press to hang up. While using menus, press to cancel an operation, back up to the previous menu, or exit the menu display.

**INT**

Press to begin an intercom conversation or to transfer a call.

**Feature menu**

The ▶ symbol shows a highlighted menu item.

**Feature menu**

DIRECTORY
CALL LOG
RINGER VOLUME
RINGER TONE
KEY TONE
LANGUAGE
CLR VOICE MAIL

**Using menus**

Press ◀ or ▶ to scroll through menu items.

Press MENU/SELECT to select or modify a highlighted item.

Press ◀OFF/CLEAR to cancel an operation, back up to the previous menu, or exit the menu display.
Quick reference guide - telephone base

**IN USE**
- On when handset is in use, when the answering system is answering an incoming call or when you are registering a handset.
- Flashes when another telephone is in use on the same line or when you are deregistering handset(s) from the telephone base.
- Flashes quickly when there is an incoming call.

**VOICEMAIL**
Flashes when you have new voicemail. Voicemail is a service offered by your local telephone company, and is different from answering system messages.

**HANDSET LOCATOR**
Press so that handsets will beep to locate misplaced handsets.

**MESSAGE COUNTER**
Number of messages (or during playback, message number currently playing).

**REPEAT**
Press to repeat message. Press **twice** to play previous message.

**ANSWER ON**
Press to turn answering system on or off.

**CLOCK**
Press to review or set clock.

**SETUP**
Press to hear and change setup options.

**ANNOC.**
Press to review or record outgoing announcement. Press again to end announcement playback or recording.

**PLAY/STOP**
Press to start or stop message playback.

**X/DELETE**
Press to delete the message currently playing. When no messages are playing, press twice to delete all old messages.

**/SKIP**
Press to skip message.

**VOLUME**
Press to adjust playback volume.

**RECORD**
Press to record a memo or, after pressing **ANNOC.**, to record an outgoing announcement.
