Quick start guide

5.8 GHz Cordless Telephone/Answering System E5926/E5927B/E5937B/E5947B/E1937B

with caller ID/call waiting
Installation and setup

After battery installation, place each handset in the telephone base or a charger and allow to charge for 16 hours before use. You can keep the battery packs charged by returning the handsets to the telephone base or chargers after each use. When the battery is fully depleted, a recharge takes about 12 hours. The average talk time on a fully charged battery is about eight hours depending on environmental conditions, and the standby time is approximately four days.

- **Press in and downward on the tab to open the battery compartment cover.**
- **Plug the battery pack connector into handset.**
- **Place the battery pack and wires in the compartment.**
- **Plug the large power adapter into an electrical outlet not controlled by a wall switch.**
- **Place handset in base or charger to charge for 16 hours before first use.**

⚠️ **Caution:** Use only the supplied rechargeable battery or replacement battery pack (part number 80-5848-00-00).

**NOTES:**

1. Use only the power cord supplied with this product. If you need a replacement, call 1 (800) 222-3111.
   In Canada, call 1 (866) 288-4268.
2. Be sure to use an electrical outlet not controlled by a wall switch.
