

Quick start guide TL74108/TL74208/TL74308/ TL74408/TL74258/TL74358/ TL74458 5.8 GHz corded/cordless telephone/answering system with caller ID/call waiting

Installation preparation

You must install and charge the handset battery before using the cordless handset.

See page 3 for easy instructions.

If you subscribe to high-speed Internet service (Digital Subscriber Line - DSL) through your telephone lines, you must install a DSL filter between the telephone base and the telephone wall jack (see page 2). The filter will prevent noise and caller ID problems caused by DSL interference. Please contact your DSL service provider for more information about DSL filters.

Your product may be shipped with a protective sticker covering the handset or telephone base display - remove it before use.

For customer service or product information, visit our website at **www.telephones.att.com** or call **1 (800) 222-3111**. In Canada, dial **1 (866) 288-4268**.

Avoid placing the telephone base too close to:

- Communication devices such as: television sets, VCRs, or other cordless telephones.
- Excessive heat sources.
- Noise sources such as a window with traffic outside, motors, microwave ovens, refrigerators, or fluorescent lighting.
- Excessive dust sources such as a workshop or garage.
- Excessive moisture.
- Extremely low temperature.
- Mechanical vibration or shock such as on top of the washing machine or work bench.

Telephone base installation

If you subscribe to high-speed Internet service (Digital Subscriber Line - DSL) through your telephone lines, you must install a DSL filter between the telephone base and the telephone wall jack. The filter will prevent noise and caller ID problems caused by DSL interference. Please contact your DSL service provider for more information about DSL filters.

Install the telephone base as shown below.

Telephone base installation

6. Plug the coiled handset cord into the \searrow jack at the left of the telephone base.

IMPORTANT INFORMATION

- Use only the power adapters supplied with this product or equivalent. To order a replacement power adapter, visit our website at www.telephones.att.com, or call 1 (800) 222-3111. In Canada, dial 1 (866) 288-4268.
- The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, underthe-table or cabinet outlet.

Handset battery installation & charging

Install the battery as shown below. After installing the battery, you can make and receive short calls, but replace the handset in the telephone base or additional charger when the handset is not being used. For optimal performance, charge the handset battery for at least 16 hours before use. When fully charged, the handset battery provides approximately five hours of talk time or three days of standby time.

If the battery is depleted, it may take approximately four minutes to charge the handset before it can resume screen display. The screen will continue to display **LOW BATTERY** until the battery has charged for approximately one hour.

Step 1

Plug the battery securely into the plug inside the handset battery compartment, matching the colorcoded label.

Step 2

Place the battery in the compartment with **THIS SIDE UP** facing up as indicated.

Step 🕄

Align the cover flat against the battery compartment cover, then slide it upwards until it clicks into place.

Charge the handset by placing the handset face out in the charger. The **CHARGE** light will be on when the handset is charging.

IMPORTANT INFORMATION

Use only the battery supplied with this product. To order a replacement or spare battery (AT&T model 27910, part number 89-0099-00-00) or equivalent, visit our website at

www.telephones.att.com, or call 1 (800) 222-3111. In Canada, dial 1 (866) 288-4268.

Charger installation

 Plug the small end of the handset charger power adapter into the jack on the underside of the charger, then route the cord through the slot as shown.
Plug the handset charger power adapter into a power outlet not controlled by a wall switch.

IMPORTANT INFORMATION

- Use only the power adapters supplied with this product or equivalent. To order a replacement power adapter, visit our website at www.telephones.att.com, or call 1 (800) 222-3111. In Canada, dial 1 (866) 288-4268.
- The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, underthe-table or cabinet outlet.
