

Quick Start Guide

5.8 GHz Cordless Telephone/Answering System E5655

with Caller ID & Call Waiting

Installation and setup

After battery installation, place each handset in its base unit or charger and allow to charge for 16 hours before use. You can keep the battery charged by returning the handsets to their base unit or charger after each use. When the battery is fully depleted, a recharge takes about 12 hours. Average talk time on a fully charged battery is about eight hours depending on environmental conditions. Standby time is approximately four days.

Plug power adapter into an electrical outlet not controlled by a wall switch.

Place handset in base or charger to charge for 16 hours before first use.

NOTE: Use only the power cord supplied with this product. If you need a replacement, call 1-800-222-3111. Be sure to use an electrical outlet not controlled by a wall switch.

Quick reference guide

Handset
