

Quick Start Guide

5.8 GHz Cordless Telephone/Speakerphone Answering System EP5995

with Caller ID & Call Waiting

Installation and setup

After installation, place the handset in the base and allow batteries to charge for 16 hours before use.

Press tab and slide cover away from the battery compartment.

Insert supplied battery as indicated. The top edge (contacts and tab) needs to be inserted first, then push down on the lower portion.

Replace battery compartment cover.

Plug power adapter into electrical outlet not controlled by a wall switch.

Plug the telephone line cord into telephone jack.

i **NOTE:** For installation of the spare battery into the spare battery compartment on the telephone base, please see page 71 of the user's manual.

Place handset in base to charge for at least 16 hours before first use. When charging, the CHARGE light should be on.

! **Caution:** Use only supplied rechargeable battery or AT&T replacement battery model 103 (SKU 00249. Part number 89-0429-00-00).

i **NOTE:** Use only the power cord supplied with this product. If you need a replacement, call 1 (800) 222-3111. In Canada, call 1 (866) 288-4268. Be sure to use an electrical outlet not controlled by a wall switch.
