Install the battery as shown below. Charge your handset(s) before initial use.

Telephone base and charger installation
For more complete instructions, refer to your user’s manual.
This quick start guide provides you with basic instructions only.

Use only the supplied rechargeable battery or replacement battery (model BT166342).

Canada, dial
by a wall switch.

Caution: Use only the power adapter provided with this product. To obtain a replacement, visit our website at www.telephones.att.com or call 1 (800) 222-3111 in Canada, or (866) 288-4268.

We recommend you program your telephone system before use. The following are a few examples of common features to set before using the telephone. Refer to the Handset settings and Answering system settings in the user’s manual for detailed instructions on setting all telephone features.

Set the date/time before using the answering system.

You can set the answering system to answer an incoming call after 2, 3, 4, 5 or 6 rings, or toll saver. If you choose toll saver, the answering system answers a call after two rings if you have new messages, or after four rings when there are no new messages.

If you want the built-in answering system instead of the voicemail to answer a call, you should set the answering system to answer a call at least two rings before the voicemail is set to answer. Contact your telephone service provider for information on your voicemail settings.

Battery installation
Install the battery as shown below. Charge your handset(s) before initial use. The battery is fully charged after 16 hours of continuous charging.

Step 1
Plug the battery connector securely into the slot facing up as indicated.

Step 2
Align the cover flat against the battery compartment, then slide it upwards until it clicks into place.

Step 3
Charge the handset by placing it face forward on the charging base or charger. The CHARGE light on the top of the handset is on during charging.

  - To select the desired line -> CELLULAR

### Answering system

Your telephone has several indicators for different types of voice messages. This feature is used for answering system and turning on or off the answering system for both calls.

- **When this feature is on, and there is at least one new message, the telephone base beeps every 10 seconds.**
  - 1. Press HOME or e/SPEAKER -> Listening sys
  - 2. Press MENU -> Hea sys setup
  - 3. Press p -> Mag alert tone
  - 4. Press q or choose Off On Off

### Caller ID service

When this feature is on and you have an incoming call, the handset and/or base speaks “Call from...” and the name of the caller based on the directory or caller ID information. You can turn this feature off for the base or each individual handset, or both.

- **On**
  - 1. Press HOME or e/SPEAKER -> Settings
  - 2. Press p or choose CID /Caller ID on or off
  - 3. Press q or choose CID /Caller ID on or off

### Directory

The home directory can store up to 200 entries, which are shared by all devices.

- **Add contact**
  - 1. Press HOME or e/SPEAKER to call.
  - 2. Press CELLULAR to call using the cell line.
