### Initial settings

We recommend you program your telephone system before use. The following are a few examples of common features to set before using the telephone. Refer to the Handset settings in the Abridged user’s manual or the online Complete user’s manual for detailed instructions on setting all telephone features.

#### Set date/time

Set the date/time before using the telephone.

1. MENU ->  Y or A -> Set date/time  -> SELECT.
2. Enter the month, day and year using the dialing keys  -> SELECT.
3. Enter the hour and minute using the dialing keys.
4.  Y or A to choose AM or PM  -> SELECT.

#### Handset ringer volume

You can set the ringer volume level to one of the six levels or turn the ringer off.

1. MENU ->  Y or A  -> Ringers  -> SELECT.
2. SELECT to select Ringer volume.
3.  Y or A to choose the desired level  -> SELECT.

#### Language

If you have accidentally changed the screen display language and want to switch it back to English, follow the step mentioned below.

- **MENU in idle mode**  -> enter 364#.

<tr>
<td>Press  to put current call on hold and to take the new call; press again to switch back and forth between calls.</td>
<td></td>
</tr>
</tbody>
</table>
Caller ID
This product supports caller ID services offered by most telephone service providers. The telephone stores caller ID information for the last 50 incoming calls in the telephone base. This information is common to all handsets.

Missed call indicator
When a handset is in idle mode and has new or missed calls, its screen shows XX Missed calls.
You can erase the missed call indicator either by reviewing the call log one by one, or by pressing and holding CANCEL on the handset in idle mode.

Review and dial a number in the call log
1. CID in idle mode -> ▼ or ▲ to scroll through the list.
2. PHONE or 4/SPEAKER to call when the desired entry is displayed.

Directory
The directory can store up to 50 entries, which are shared by all system handsets.

<table>
