Expansion Module Overview

The Synapse SB67080 Expansion Module adds to the functionality of your Synapse Deskset, enabling you to monitor activity at other extensions and providing additional quick-dial keys. Depending on how your Expansion Module is configured, you can monitor up to 24 extensions or access up to 24 additional quick-dial entries.

The front panel and screen of the Expansion Module are shown and described below.

**Module number (paired Deskset extension number)**
The Expansion Module dials and answers calls through the paired Deskset.

**Screen**
Displays extension names, call status, quick-dial entries, and Expansion Module settings.

**Shift Key**
- Press to display the next page. Each page shows 12 extensions and/or quick-dial entries.
- Press and hold to access the Settings menu.

**Page Indicator**
The screen shows 12 extensions and/or quick-dial entries per page.

**Feature Keys and LEDs**
- Dial extensions and external numbers.
- Answer incoming calls to other extensions.
- Select Expansion Module settings.
- LEDs indicate call status.
Monitoring Call Status

The Expansion Module enables you to monitor call activity at other extensions. Screen icons and Feature Key LEDs indicate the current call status, as described below.

<table>
<thead>
<tr>
<th>Icon</th>
<th>LED</th>
<th>Status</th>
<th>Icon</th>
<th>LED</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>📞</td>
<td>Solid Green</td>
<td>Dialing, on a phone call, or paging</td>
<td>📞</td>
<td>Solid Orange</td>
<td>Deskset user has turned Do Not Disturb (DND) on. You can still call the extension, but ringing at the far end will be silenced.</td>
</tr>
<tr>
<td>📞</td>
<td>Slow Green Flash</td>
<td>On Hold</td>
<td>📞</td>
<td>Fast Orange Flash</td>
<td>Incoming call while DND is on. You can answer the call remotely (see page 8). You cannot monitor any other call activity while the extension has DND on.</td>
</tr>
<tr>
<td>📞</td>
<td>Fast Green Flash</td>
<td>Incoming Call.* You can answer the call remotely (see page 8).</td>
<td>📞</td>
<td>None</td>
<td>Idle—no activity on the phone, and DND is off.</td>
</tr>
<tr>

<td>None</td>
<td>Indicates a quick-dial entry.</td>
<td>🔄</td>
<td>None</td>
<td></td>
</tr>
</tbody>
</table>

* If your Synapse system has been configured for Line Appearance mode, the Expansion Module does not indicate a new incoming call on an external line. In Line Appearance mode, a Feature Key LED flashes green for an incoming call when:
  • the call is on the Intercom line
  • the external call is forwarded to an extension through a Call Forward-No Answer setting
  • the external call is transferred to an extension.

Dialing Using Quick Dial

You can call external phone numbers using the Expansion Module quick-dial keys. Your system administrator can program quick-dial entries for you. The icon indicates a quick-dial key.

After pressing a quick-dial key on the Expansion Module, your Synapse Deskset dials the number on the first available line.

Press a quick-dial key to dial the number on the Deskset.
Dialing Other Extensions

To dial other extensions using the Expansion Module, press the Feature Key next to the extension number that you want to call.

**Transfer**
When you want to transfer a call to another extension, you can use the Expansion Module to dial the other extension number.

**To transfer a call:**

1. From an active call, press the **Transfer** soft key on the Deskset. The call is put on hold.
2. Press a Feature Key on the Expansion Module to call the transfer destination.
3. After establishing the second call, press **Xfer?** [SB6703x] or **Transfer** [SB6702x] on the Deskset to complete the transfer.

**Call Appearance mode only**—You can transfer a call directly to another extension’s voicemail using the Expansion Module. After pressing **Transfer** for the first call, press the **Vmail** soft key on the Deskset, then press a Feature Key on the Expansion Module to transfer the waiting call directly to an extension’s voicemail.

**Conference**
When you have an active call and want to create a conference call, you can use the Expansion Module to dial another extension number before joining all calls in a conference.

**To create a conference call:**

1. From an active call, press the **Conf** soft key on the Deskset.
2. Press a Feature Key on the Expansion Module to dial another extension number.
3. After establishing the second call, press the **Join?** soft key on the Deskset to start the conference.
Answering Remote Incoming Calls

The Expansion Module enables you to answer a call that is ringing at any monitored extension.

To answer a remote call with the Expansion Module, press the flashing Feature Key for the ringing extension. The Deskset paired with the Expansion Module will answer the call. The illustration below shows the Expansion Module being used to answer a call from Milford Taxi to Charlie Johnson’s extension.

**Note:** The Deskset answers the call in its Preferred Audio Mode (Speaker or Headset). After the Deskset answers the remote call, pick up the handset to speak to the caller through the handset.

---

**Press the key for the ringing extension. The call is answered on the Deskset.**

**SB6703x Series Deskset**

**SB6702x Series Deskset**
Expansion Module Settings

To view the Expansion Module settings, press and hold the **Shift** key for five seconds. The main menu appears, as shown below.

To access the settings menus listed below, press an associated Feature Key from the main menu.

**Display Settings**
Adjust contrast and backlight for the screen. See page 10 for more information.

**IP Settings**
Adjust network connection settings.

**Note:** Do not modify these settings unless instructed by your system administrator.

**Device Information**
View network status, serial number, firmware version, and other device-specific information. This information is mainly of interest to your system administrator.

Using the Display Settings Menu

You can adjust the Expansion Module display on the Display Settings menu.

To adjust the Display Settings:

• Press the ◄ or ► keys to change the highlighted value.
• To move to the next setting on the screen, press Next.
• To save the settings and return to the main menu, press Save.
• To return to the previous menu without saving any changes, press Cancel.
Troubleshooting

Network Status Messages
When the Expansion Module is joining the network or network activity is disrupted, status messages appear in the header area of the screen. Some of these messages appear as part of normal operation, but if one of them appears and does not go away, there may be a problem with the network or the device.

<table>
<thead>
<tr>
<th>Status</th>
<th>Action</th>
</tr>
</thead>
</table>
| **Network Down**        | • Ensure the LAN cable is connected correctly to the back of the unit.  
                          | • If the problem persists, consult your system administrator. |
| **Acquiring Address**   | • Reset the Expansion Module.                                |
| **Joining Site**        | • Disconnect the LAN cable, reset the Expansion Module to factory defaults, then reconnect the Expansion Module. |
| **Synchronizing**       | • Consult your system administrator.                          |
| **Synch Failed**        |                                                              |

Resetting the Expansion Module
You may need to manually reset the Expansion Module or return the device to factory defaults if it does not respond or fails to synchronize with the system. To reset the Expansion Module, press the **RESET** button by inserting a pen or paper clip into the hole and applying pressure to the button.

To reset the device without losing any custom settings, press the **RESET** button for less than five seconds. You can get the same result by disconnecting and reconnecting power to the device.

To completely reset the device to factory defaults, unplug the LAN cable and press the **RESET** button for more than five seconds.
Troubleshooting, continued

Expansion Module and Deskset Error Messages

If the message **Cannot communicate with Deskset** appears when you try to call an extension from the Expansion Module, there may be a connection problem between the Expansion Module and the Deskset with which it is paired.

First try making a call from the Deskset. If you can call out successfully, then the Expansion Module is not paired with your Deskset or it has a network error. Consult your system administrator.

If you cannot make a call from the Deskset, then the Deskset has a network error (which may be indicated by a message on the Deskset screen or Deskset Device Information page), the Deskset may be disconnected from the network, or have lost power. Ensure that the Deskset has power and is connected to the network.

For more information about troubleshooting the Deskset, consult your system administrator or download the Deskset User Guide from [www.telephones.att.com/synapseguides](http://www.telephones.att.com/synapseguides).
Important Safety Instructions

This symbol alerts you to important operating or servicing instructions in this document. Always follow basic safety precautions when using this product to reduce the risk of injury, fire, or electric shock.

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury, including the following:

• Read and understand all instructions.
• Follow all warnings and instructions marked on the product.
• Unplug this product from the wall outlet before cleaning. Do not use aerosol or liquid cleaners. Use a damp cloth for cleaning.
• Do not use this product near water (for example, near a bathtub, kitchen sink, or swimming pool).
• Do not place this product on an unstable surface.
• This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home or office, consult your dealer or local power company.
• Do not allow anything to rest on the power cord. Do not install this product where the cord may be walked on.
• Never push objects of any kind into this product through the slots in the unit because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product.
• To reduce the risk of electric shock, do not disassemble this product; take it to an authorized service facility. Opening or removing parts of the unit other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassembling can cause electric shock when the product is subsequently used.
Important Safety Instructions, continued

- Do not overload wall outlets and extension cords.
- The power adapter is intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling or an under-the-table or cabinet outlet.

Unplug this product from the wall outlet and refer servicing to an authorized service facility under the following conditions:
- When the power supply cord or plug is damaged or frayed.
- If liquid has been spilled on the product.
- If the product has been exposed to rain or water.
- If the product does not operate normally when following the operating instructions. Adjust only those controls that are covered by the operating instructions. Improper adjustment of other controls may result in damage and often requires extensive work by an authorized technician to restore the product to normal operation.
- If the product has been dropped and the unit has been damaged.
- If the product exhibits a distinct change in performance.
Maintenance

Your system contains sophisticated electronic parts, so it must be treated with care.

**CAUTION**

**Avoid Rough Treatment**
Handle the unit gently. Save the original packing materials to protect your equipment if you ever need to ship it.

**Avoid Water**
Your unit can be damaged if it gets wet. Do not use the equipment outdoors in the rain or handle it with wet hands. Do not install the equipment near a sink, bathtub, or shower.

**Electrical Storms**
Electrical storms can sometimes cause power surges harmful to electronic equipment. For your own safety, exercise caution when using electrical appliances during storms.

**Cleaning Your Unit**
Your unit has a durable plastic casing that should retain its luster for many years. Clean it only with a soft cloth slightly dampened with water or a mild soap solution. Do not use excess water or cleaning solvents of any kind.
