Quick start guide

CHARGE

1. Install the battery, as shown below. Charge your handset(s) before initial use.

CLO/VOLUME

- Press the redial/cancel button to view the last ten number digits.
- Press and hold to select or enter a menu or entry.
- Press to change the volume setting when on a call.

REDIAL/PAUSE

- Press repeatedly to view the last ten number digits.
- While in a menu, press to select an item or enter an entry or setting.

OFF/CANCEL

- During a call, press to hang up.
- While in a menu, press to cancel the current setup or not the menu display or option.

QUICK (default key)

- During an outside call, intercom call, message or a group broadcast, press to change the audio quality to best suit your hearing.
- When the handset is not in use, press to change the ringer volume.

SELECT

- While in the menu, press to confirm or save an entry or setting.

7. Set date/time

- Set date/time before using the answering system.

8. Telephone base settings

- Turn the answering system on or off.

9. Voice mail setup

- Record your own announcement.
- Your outgoing announcement plays when calls are answered by the answering system.
- You can set the preset announcement to answer calls, or replace it with your own recorded announcement.

Using a cordless handset:

1. MENU => or # => Answering sys => SELECT.
2. SELECT to select Annoucement.
3. SELECT to select Record announcement.
4. Press the handset, record your announcement and press # to end recording.

Using the telephone base:

1. =>/RECORD or # => Announcement => SELECT.
2. Press towards the telephone base to record your announcement and press # to end recording.

Number of ringer

You can set the telephone system to answer an incoming call after two, three, four, five or six rings, or toll saver. If you choose toll saver, the answering system answers a call after two rings if you have new messages, or after four rings when there are no new messages.

If you want the built-in answering system instead of the voicemail to answer a call, you should set the answering system to answer a call at least two rings. Before the voicemail is set to answer, you must contact your telephone service provider for information on your voicemail settings.

Using a cordless handset or the telephone base:

1. MENU => or # => Answering sys => SELECT.
2. => or # => Ans sys setup => SELECT.
3. => or # => # of rings => SELECT.
4. # or # => Choose among 2, 3, 4, 5, 6 or Toll saver => SELECT.

Ring level

You can set the ringer volume level to one of the six levels or turn the ringer off.

Using a cordless handset or the telephone base:

1. MENU => or # => Ringers => SELECT.
2. SELECT to select Ring level.
3. # or # => Choose the desired level => SELECT.

Ring tone language

If you have accidentally changed the screen display language and want to switch it back to English, follow the steps:
- => in all mode => ENTER 3649.
Steps
Press the telephone base. This information is common to all devices.

This product supports caller ID services offered by most telephone service providers.

Telephone operation

Answering a call
Using a cordless handset: Press \( \text{PHONE} \) or \( \text{SPEAKER} \) to call.

Using a telephone base: Press \( \text{OFF} \) or \( \text{SPEAKER} \) to call.

Ending a call
Using a cordless handset: Press \( \text{OFF} \) or \( \text{SPEAKER} \) to disconnect the call.

Using the telephone base: Press \( \text{OFF} \) or \( \text{SPEAKER} \) to disconnect the call.

Handset speakerphone
During a call, press \( \text{OFF} \) or \( \text{SPEAKER} \) to switch between handset speakerphone and normal handset use.

Redial
Using a cordless handset: Press \( \text{REDIAL} \) to dial the previous number.

Using the telephone base: Press \( \text{REDIAL} \) to dial the previous number.

Volume control
Press \( \text{VOLUME} \) to increase or decrease Volume.

Call waiting
When your telephone service provider offers the call waiting feature, press \( \text{FLASH} \) to hold the current call and dial a new number. If the new call is unanswered, you will hear a tone and the current call will be put on hold. To return to the first caller, press \( \text{FLASH} \) again.

Caller ID
This product supports caller ID services offered by most telephone service providers. The telephone stores caller ID information of the last 50 incoming calls in the telephone base. This information is common to all devices.

When the telephone base or the telephone is in idle mode and has new or missed calls, its screen shows XX Missed calls. You can access the missed call indicator either by reviewing the call log one by one, or by pressing and holding \( \text{CANCEL} \) on the telephone base or idle mode.

Review and dial a number in the call log
1. CID in idle mode \( \text{VOL} \) or \( \text{VOL} \) to scroll through the list.
2. \( \text{PHONE} \) or \( \text{SPEAKER} \) on the handset, or \( \text{PHONE} \) or \( \text{SPEAKER} \) on the telephone base to call when the desired entry is displayed.

Caller ID announcement
When the telephone base or telephone is in idle mode and you have an incoming call, the handset and/or base speaks “Call from...,” and the name of the caller based on the directory or caller ID information. You can turn this feature off for the base or each individual handset, or both.

1. \( \text{MENU} \) \( \text{VOL} \) or \( \text{VOL} \) to scroll through the list.
2. \( \text{PHONE} \) or \( \text{SPEAKER} \) to select Call id ann or \( \text{SPEAKER} \) to select Call id ann.
3. \( \text{SPEAKER} \) to select On or \( \text{SPEAKER} \) to select Off.

Directory
The directory can store up to 50 entries, which are shared by all system devices.

Adding an entry
1. \( \text{MENU} \).
2. \( \text{VOL} \) or \( \text{VOL} \) to Directory \( \text{SELECT} \).
3. \( \text{VOL} \) or \( \text{VOL} \) to Add contact \( \text{SELECT} \).
4. \( \text{VOL} \) or \( \text{VOL} \) to a telephone number up to 30 digits \( \text{SELECT} \).
5. \( \text{VOL} \) or \( \text{VOL} \) to enter a name up to 15 characters \( \text{SELECT} \).

Searching/dailing an entry
1. DIR in idle mode.
2. \( \text{PHONE} \) or \( \text{SPEAKER} \) to browse through the directory, or press the dialing keys (0-9, TONE \( \text{VOL} \) or \( \text{VOL} \)) to call.

Answering system
Your telephone has separate indicators for two different types of voice messages: those left on the built-in answering system and those left at your telephone service provider's voicemail. To listen to messages recorded on the built-in answering system, refer to the Message playback section on the right; to listen to voicemail, contact your telephone service provider for more information.

Turn answering system on/off
The answering system must be turned on to answer and record messages.

Using a cordless handset:
1. \( \text{MENU} \).
2. \( \text{VOL} \) or \( \text{VOL} \) to Answering sys \( \text{SELECT} \).
3. \( \text{VOL} \) or \( \text{VOL} \) to Answer \( \text{OFF} \) or \( \text{OFF} \) \( \text{SELECT} \).

When the answering system is on, the handset shows ANS ON.

Using the telephone base:
Press \( \text{ANS ON/OFF} \) to turn the answering system on or off. If the answering system is turned on, it announces, “Calls will be answered.” If the answering system is turned off, it announces, “Calls will not be answered.”

Message alert tone
When this feature is on, and there is at least one new message, the telephone base beeps every 10 seconds.

Using a cordless handset or the telephone base:
1. \( \text{MENU} \) \( \text{VOL} \) or \( \text{VOL} \) to Answering sys \( \text{SELECT} \).
2. \( \text{VOL} \) or \( \text{VOL} \) to Ans sys setup \( \text{SELECT} \).
3. \( \text{VOL} \) or \( \text{VOL} \) to Ans alert tone \( \text{SELECT} \).
4. \( \text{VOL} \) or \( \text{VOL} \) to On or \( \text{OFF} \) \( \text{SELECT} \).

Call waiting
Use this feature to choose whether incoming messages can be heard over at the telephone base when they are being recorded. If you turn call screening on, you hear the incoming message at the telephone base. While monitoring an incoming message, you can answer the call by pressing \( \text{PHONE} \) on the handset or \( \text{SPEAKER} \) on the telephone base.

Using a cordless handset or the telephone base:
1. \( \text{MENU} \) \( \text{VOL} \) or \( \text{VOL} \) to Answering sys \( \text{SELECT} \).
2. \( \text{VOL} \) or \( \text{VOL} \) to Ans sys setup \( \text{SELECT} \).
3. \( \text{SPEAKER} \) to select Call screening \( \text{SELECT} \).
4. \( \text{VOL} \) or \( \text{VOL} \) to choose On or \( \text{OFF} \) \( \text{SELECT} \).

Answering system (continued)

Message playback
Using the telephone base:
Press \( \text{MENU} \) \( \text{VOL} \) to PLAY when the telephone base is in idle mode.

Using a handset:
Press \( \text{MENU} \) twice when the handset is in idle mode.

Options during playback:

<table>
<thead>
<tr>
<th>On the telephone base</th>
<th>On the handset</th>
</tr>
</thead>
<tbody>
<tr>
<td>Adjust playback volume</td>
<td>Press ( \text{VOLUME} ) ( \text{VOL} ) ( \text{VOL} ) ( \text{VOL} )</td>
</tr>
<tr>
<td>Step playback</td>
<td>Press ( \text{STOP} )</td>
</tr>
<tr>
<td>Skip to the next message</td>
<td>Press ( \text{SKIP} )</td>
</tr>
<tr>
<td>Repeat the message</td>
<td>Press ( \text{REPEAT} )</td>
</tr>
<tr>
<td>Play the previous message</td>
<td>Press ( \text{REPEAT} ) twice</td>
</tr>
<tr>
<td>Delete the message</td>
<td>Press ( \text{DELETE} )</td>
</tr>
</tbody>
</table>
