This quick start guide provides you with basic instructions only. For more complete instructions, refer to your Abridged user’s manual provided in the package, or see the online Complete user’s manual at www.telephones.att.com/manuals.

### Telephone base installation
- Route the cords through the slot.
- Plug the power cord and telephone line cord into the jacks.

### Charger installation
- Raise the antenna.
- If you have DSL, high-speed internet service, a DSL filter (not included) is required. The DSL filter must be plugged into the telephone wall jack.
- Plug the power adapter into an electrical outlet not controlled by a wall switch.

### Battery installation
- Install the battery, as shown below. Charge your handset(s) before initial use.

### Quick reference guide

**Charge the handset by placing it face forward**

**2. Align the cover flat against**

**1. Plug the battery connector securely into the socket inside the handset.**

Install the battery, as shown below. Charge your handset(s) before initial use.

**CAUTION:** Use only the supplied rechargeable battery or replacement battery (model BT183342/BT183342).

**NOTE:** Audio Assist™ is a registered trademark of Advanced American Telephones.

**Initial settings**

We recommend you program your telephone system before use. The following are a few examples of common features to set before using the telephone. Refer to the **Handset settings and Answering system settings** in the Abridged user’s manual or the online Complete user’s manual for detailed instructions on setting all telephone features.

**Set date/time**

Set the date/time before using the answering system.

1. **MENU ➔ or ➔ Answering sys ➔ SELECT.**
2. **SELECT to set Announcment.**
3. **SELECT to set Record ann.**
4. Facing the handset, record your announcement and press 5 to end recording.

**Number of rings**

You can set the answering system to answer an incoming call after two, three, four, five or six rings, or toll saver. If you choose toll saver, the answering system answers a call after two rings when you have new messages, or after four rings when there are no new messages. This enables you to check for new messages and avoid paying unnecessary long distance charges if you are calling from out of your local area. If you want the built-in answering system instead of the voicemail to answer a call, you should set the answering system to answer a call at least two rings before the voicemail is set to answer. Contact your telephone service provider for information on your voicemail settings.

1. **MENU ➔ or ➔ Answering sys ➔ SELECT.**
2. **MENU ➔ or ➔ Ans sys setup ➔ SELECT.**
3. **MENU ➔ or ➔ # of rings ➔ SELECT.**
4. **MENU ➔ or ➔ Toll saver ➔ SELECT.**

**Handset ringer volume**

You can set the ringer volume level to one of the six levels or turn the ringer off.

1. **MENU ➔ or ➔ Ringers ➔ SELECT.**
2. **SELECT to select Ringer volume.**
3. **MENU to choose the desired level ➔ SELECT.**

**Reset language to English**

If you have accidentally changed the screen display language and want to switch it back to English, follow the step mentioned below.

**MENU in idle mode ➔ enter 364#**
Telephone operation

Caller ID

This product supports caller ID services offered by most telephone service providers. The telephone stores caller ID information for the last 50 incoming calls in the telephone base. This information is common to all handsets.

Missed call indicator

When a handset is in idle mode and has new or missed calls, its screen shows XX Missed calls.

You can erase the missed call indicator either by reviewing the call log one by one, or by pressing and holding CANCEL on the handset in idle mode.

Review and dial a number in the call log

1. CID in idle mode -> \ or \ to scroll through the list.
2. \PHONE or \SPEAKER to call when the desired entry is displayed.

Caller ID announce

When this feature is on and you have an incoming call, the handset and/or base speaks “Call from…” and the name of the caller based on the directory or caller ID information. You can turn this feature on or off for the base or each individual handset, or both.

1. MENU -> \ or \ to Settings -> SELECT.
2. \ or \ to Caller ID anne -> SELECT.
3. \ or \ to choose Set all On/Off, Local handset, or Base -> SELECT.
4. \ or \ to choose On or Off -> SELECT.

Directory

The directory can store up to 50 entries, which are shared by all system handsets.

<table>
<thead>
<tr>

</tr>
<tr>
<td></td>
<td>3. \ or \ to contact -&gt; SELECT.</td>
</tr>
<tr>
<td></td>
<td>4. \ or \ to name -&gt; SELECT.</td>
</tr>
<tr>
<td></td>
<td>5. Enter a name up to 15 characters -&gt; SELECT.</td>
</tr>
<tr>
<td>Searching/dialing an entry</td>
<td>1. DIR in idle mode</td>
</tr>
<tr>
<td></td>
<td>2. \ or \ to browse through the directory, or press the dialing keys (0-9) to start a name search.</td>
</tr>
<tr>
<td></td>
<td>3. \PHONE or \SPEAKER to call.</td>
</tr>
</tbody>
</table>

Answering system

About answering system and voicemail

Your telephone has separate indicators for two different types of voice messages: those left on the built-in answering system and those left at your telephone service provider’s voicemail. To listen to messages recorded on the built-in answering system, refer to the Message playback section; to listen to voicemail, contact your telephone service provider for more information.

Turn answering system on/off

The answering system must be turned on to answer and record messages.

Press \ANSWER on the telephone base to turn the built-in answering system on or off.

When it is turned on, the \ANSWER light on the telephone base turns on and ANSI on displays on the handset.

Message alert tone

When this feature is on, and there is at least one new message, the telephone base beeps every 10 seconds.

1. MENU -> \ or \ to Answering sys -> SELECT.
2. \ or \ to Ans sys setup -> SELECT.
3. \ or \ to Msg alert tone -> SELECT.
4. \ or \ to On or Off -> SELECT.

Call screening

Use this feature to choose whether incoming messages can be heard over the telephone base speaker when they are being recorded. If you turn call screening on, you hear the incoming message. While monitoring an incoming message, you can answer the call by pressing \PHONE on the handset.

1. MENU -> \ or \ to Answering sys -> SELECT.
2. \ or \ to Ans sys setup -> SELECT.
3. SELECT to select Call screening.
4. \ or \ to choose On or Off -> SELECT.

Message playback

Using the telephone base:

Press \PLAY when the telephone base is in idle mode.

Using a handset:

Press MENU twice when the handset is in idle mode.

Options during playback

<table>
<thead>
<tr>
<th>Feature</th>
<th>On the telephone base</th>
<th>On a handset</th>
