Quick Start Guide
AT&T SB67030 Deskset
AT&T SB67031 Deskset
Deskset Overview

This page identifies and describes the main display and key groups for the Synapse® SB67030 and SB67031 Deskset. See the User’s Guide at www.telephones.att.com/synapseguides for additional information.

- **Liquid Crystal Display (LCD)**
  Provides controls and information for using the Deskset.

- **Soft Keys**
  Four keys that produce different actions depending on the LCD labels.

- **Voicemail Indicator**
  Lights when a new personal voice message or messages have been received. For systems that include the SB67050 ATA, also lights for Group Mailbox messages.

- **Call Appearance**
  Five keys that access active calls and held calls and initiate new calls.

- **Quick Dial**
  Provides easy access to frequently dialed numbers.

- **Hard Keys**
  A set of fixed-function keys.
Idle Screen Liquid Crystal Display (LCD)

This page identifies the basic elements and describes the call functions of the Liquid Crystal Display in the Idle screen. The Idle screen displays when the Deskset has AC power and no activity.

Time/Date

Extension Number/Name
The extension number and name for this deskset.

New Missed Calls
Press SELECT when this is highlighted to display the name, number, and time of recently received calls.

New Messages
Press SELECT when this is highlighted to access the list of new voice messages.

Help Text

Status Display
DND, FWD ON – Feature enabled
< 5 min – Voicemail nearly full
VMFull – Voicemail full
ANS ON – Auto Answer enabled
Audible Ring
Delay Enabled

Navigation Arrows
Appear when pressing the ▲ or ▼ navigation key has an effect.

Call Appearance Icons
Show whether there is an active, conference or held call, or whether there is a location available for placing a call.

Quick Dial
Provides easy access to frequently dialed numbers.

This page illustrates an idle screen in Call Appearance mode. If your system has been configured for Line Appearance mode, your idle screen will not include all these elements. For more information, see the User’s Guide at www.telephones.att.com/synapseguides.
Call Appearance Keys & Indicators

Five Call Appearance keys, their LEDs, and the icons on the display next to them reflect call status. For active, ringing and held calls, the Deskset presents a name and number next to a call appearance key during call activity. As you use the ▲ and ▼ navigation key to highlight different calls, the appropriate soft keys display.

Name and Number
If your company has caller ID service, the name and number of incoming calls appear. For outgoing calls, the phone number appears.

Call Appearance Icon
Call Appearance Key
Call Appearance LED
Call Timer

If your system has been configured for Line Appearance mode, keys and indicators function differently. For more information, see the User’s Guide at www.telephones.att.com/synapseguides.
The Deskset displays Call Appearance icons that show call status, and complement the LED status indications.

Hard Keys

Menu
Accesses the configuration menu.

Directory
Accesses the Directory.

Call Log
Accesses the incoming call log.

Messages
Accesses the voicemail feature.

Help
Accesses help.

Redial
Accesses the Redial list.

Numeric Key Pad

Select
Selects a highlighted option in most cases.

Cancel
Cancels the most recent operation and returns to previous function.

Navigation
Moves the cursor up/down/left/right on the display.

Headset
Routes audio to headset. Can be used to go off hook or on hook.

Volume
Increases/decreases the ringer and voice volume.

Mute
Prevents your voice from being heard.

Hold
Places current active call on hold.

Speaker
Routes audio to speakerphone. Can be used to go off hook or on hook.
Soft Keys

A set of four context-sensitive keys that provide functions based on the LCD display labels.

Soft keys such as More 1/2 indicate that there are more than four soft keys available. Numeric designation indicates current page. For example, More 1/2 indicates that you are on page one of two. The More 1/3 key indicates that you are on page one of three.

The example shows the soft key labels for the soft keys on the Idle screen.

If your system has been configured for Line Appearance mode, different soft keys will be available. For more information, see the User’s Guide at www.telephones.att.com/synapseguides.

* Appears only when there is a SB67040 Cordless Handset registered.
You can use the Deskset to set up many Deskset features. Access the Menu by pressing **MENU**, and then select options by scrolling down to an option and pressing **SELECT**, or by pressing the Dial-Pad key with that option number.

- Press **1** on the Dial Pad to display the Deskset Settings menu (Display, Sounds, and Preferred Audio).

- Press **2** to display the User Settings menu (Greetings, Call Forward All, Auto Answer, Voicemail Memory, Name Recording, Cordless Settings, and Password).

- Press **3** to display the Admin Settings menu (a System Administrator password is required).

- Press **4** to display the Deskset Information menu.

If your extension is the operator extension, press **5** to change the Auto Attendant settings.

See the User’s Guide at [www.telephones.att.com/synapseguides](http://www.telephones.att.com/synapseguides) for additional information on these features.
Making a Call

You can make a call from the Deskset using Predialing, Live Dialing or from a list. To Predial, use the dial pad to enter a phone number and then go off hook. To Live Dial, go off hook, then dial a number. To make a call when viewing a list of numbers such as the Directory, Call Log, Redial or Messages lists, highlight the number and then press Call.

To Predial a number:
1. Enter the phone number using the dial pad. To call an outside number, dial 9, or whatever digit, if any, that must be dialed first.

2. Lift the corded handset, press SPEAKER, HEADSET or the Call Appearance key associated with the Predial string to go off hook.

3. Answering an incoming call cancels the Predial Call Appearance.

To Live Dial a number:
1. Go off hook from Idle.

2. Enter the number you want to dial. The Active Call screen displays.
   • To dial an outside number enter the digit 9, or whatever digit, if any, that must be dialed first.
   • After a second digit (not a 1) is entered, ExtList will no longer be available.
You can answer a call by lifting the corded handset, pressing the Answer soft key, pressing SPEAKER, pressing HEADSET, pressing the associated Call Appearance key, or you can set the Deskset to automatically answer after a delay.

See the User’s Guide at www.telephones.att.com/synapseguides for additional information on this feature.

Instead of answering, you can turn off the ringer by pressing Ignore or send the call directly to Voicemail by pressing FwdVM.

Once a call has been forwarded to Voicemail, you can listen to the message the caller is leaving by pressing Listen. During Voicemail recording, you can also press Clear to return to the idle screen or press Answer to answer the call.
### Managing a Call

The Deskset Call Management functions begin with the Active Call screen.

The table shows the soft key labels for the soft keys that appear after a call is answered.

If your system has been configured for Line Appearance mode, a different set of soft keys will be available. For more information, see the User’s Guide at [www.telephones.att.com/synapseguides](http://www.telephones.att.com/synapseguides).

</tbody>
</table>
Creating a Conference Call

The Deskset can conference up to two calls to create a three-party conference call. The calls may be two external calls or two internal calls, or one external and one internal call. Only one conference can exist at a time at a Deskset.

**To create a conference call:**

1. Establish the first call, Call A. You may establish Call A through direct dialing, from the Extension list, Call Log, Redial list, Park list, Directory, Quick Dial or by taking a held call off hold.

2. Press `Conf`. Call A will be placed on hold.

3. Establish the second call, Call B, and `Join?` appears. You may establish Call B through direct dialing, from the Extension list, Call Log, Redial list, Park list, Directory, Quick Dial or by taking a held call off hold.

5. The selected parties will now join you in a conference.
Paging

You can page all other extensions, or, if the System Administrator has created them, you can page groups of other extensions (Paging Zones). Paging is available from Idle or from a held call.

To page extensions:
1. From Idle or from a held call, press More until you see Page.

2. Press Page. The Paging Zones screen displays with a Page All option, and any Paging Zones that the Administrator has created.

   NOTE: If your system includes the optional SB67050 ATA with an overhead paging device attached, overhead paging entries may appear in the list of Paging Zones.

3. To continue, highlight All Extensions or the name of the desired Paging Zone, and press Start.
   • An extension on an active call does not receive the page.
   • If you go off hook during an incoming page by lifting the corded handset or pressing a Call Appearance key, any incoming page is terminated on your extension.

4. When finished, press EndPage to return to the Idle screen.
Call Transfer/Do Not Disturb Setup

**To transfer a call:**
1. From the Active Call Screen, if necessary, press **More** until you see **Transfer**.
2. Press **Transfer**. The Active Call is placed on hold.
3. Dial a number or access an entry from the Directory, Call Log, Extension list, or Messages list and press **Call**. You can also transfer to a parked or held call, by accessing it and pressing **SELECT**. If desired, you can announce the transfer.
4. To complete the transfer, press **Xfer?**. The Call Transferred screen displays for two seconds.

See the User’s Guide at [www.telephones.att.com/synapseguides](http://www.telephones.att.com/synapseguides) for additional transfer functions.

**To enable or disable Do Not Disturb (DND):**
1. From the Idle Screen, press **More** until you see **DND**.
2. To enable DND press **DND**.
3. To confirm DND, press **Confirm**. **DND ON** appears in the top right of the display.
4. To disable DND from the Idle screen, press **DND**.
Accessing Voicemail

To display the New Message list, from the Idle screen, highlight # New Messages and press SELECT. To view the entire message list, press MESSAGES. You will be prompted to enter your password if you have created one.

**NOTE:** If your system includes the optional SB67050 ATA with Group Mailboxes enabled, a list of the group mailboxes appears. If Voicemail Distribution is enabled at your Deskset, a screen appears, allowing you to choose to listen to your messages by pressing ✉️.

Once a new message is played, the new message count will go down by one. If there are no new messages, **0 New Messages** displays.

| **Play** | Plays a message. |
| **DelMsg** | Deletes highlighted message. |
| **FwdMsg** | Initiates forwarding a message. |
| **DelAll** | Deletes all messages. |
| **MrkNew** | Marks highlighted msg as new. |
| **Call** | Dials the highlighted entry. |
| **PlayAll** | Plays all messages. |
| **ClrNew** | Clears the new icon (!) from all messages. |
| **More 1/3** | Moves to next set of soft keys. |
| **More 2/3** |
| **More 3/3** |
Accessing Call Log

To display the New Calls, from the Idle screen, highlight # New Missed Calls and press SELECT.

A new call record will no longer be considered new once it has been highlighted. Reviewing a new call reduces the count by one.

To view the entire Call Log press CALL LOG.

If the caller left a voicemail message, indicated by tape icon, you may play the message from the Call Log list or from Call Log details.

<table>
<thead>
<tr>
<th>Action</th>

</tbody>
</table>

*Appears only when there is a message.
The Directory consists of other Deskset Extension numbers, your own Personal entries, and System entries that only the System Administrator can add and edit. You can add up to 50 Personal entries to your Deskset Directory.

Within the Directory, you can press a Dial-Pad key (see Dial Pad Entry on page 18) to see the first name that starts with the first letter on that key. If there is no match, the set displays the next entry in the alphabetical list. You can also use the \( \uparrow \) and \( \downarrow \) navigation keys to scroll through the Directory.

**Directory**

<table>
<thead>
<tr>
<th>Name</th>
<th>Number</th>
<th>Type</th>
</tr>
</thead>
<tbody>
<tr>
<td>Graham Bell</td>
<td>9-1-800-222-3111</td>

</tr>
</tbody>
</table>

Use \( \uparrow \) or \( \downarrow \) to scroll or use dial pad for quick search.

- **New**: Creates a new personal entry.
- **Edit**: Edits highlighted entry.
- **Delete**: Deletes highlighted entry.
- **FirstNme**: Toggles First and Last Name sort.
- **Call**: Dials highlighted entry.
- **List**: Opens the sort options menu in Directory.
- **More 1/3**: Moves to next set of soft keys.
- **More 2/3**
- **More 3/3**
Dial Pad Entry

Dial pad data entry allows you to use the dial pad to enter alphabetical characters into a text field.

Press a dial pad key repeatedly to display first the upper case letters for that key, then the digit, and then the lower case letters for that key in sequence.Pressing the key further will cycle through the sequence again.

The pound (#) and star (*) keys have been assigned special characters. Pressing these keys will cycle through each special character in the order shown in the table below.

<table>
<thead>
<tr>
<th>Key Press</th>
<th>First</th>
<th>Second</th>

<td>&amp;</td>
</tr>
<tr>
<td></td>
<td>*</td>
<td>?</td>
<td>!</td>
<td>/</td>
<td>(</td>
<td>)</td>
</tr>
</tbody>
</table>
Using the Directory

To create a new Directory entry:

1. To display the Directory list, press DIRECTORY.

2. To display the Personal Entry screen, press New.

3. Fill in the First Name, Last Name and Phone # fields using the dial pad data entry. For outside calls, start with a 9, or whatever your system administrator said is necessary, in the Phone # field.

4. To return to the Directory list, press Save.

To search for a list entry:

1. Display the Directory list by pressing DIRECTORY.

2. To search for either an exact match or the closest match, press the dial key that contains the first letter of the name you are looking for. Keep pressing the dial key until the letter you are seeking appears. For example, press 5 twice for “Kenneth.”
To access personal voicemail remotely:

1. Dial your company telephone number.
2. Dial your extension and wait until it answers.
3. Immediately press star twice (**).
4. If you have created a voicemail password, enter it.
5. Press pound (#).
6. You have the following options as illustrated on the front.
   - To listen to new messages, press 1.
   - To listen to old messages, press 2.
   - To stop message playback, press 5.
   - To play or pause playback, press 1.
   - To delete the current message, press 3.
   - To repeat the previous message, press 4.
   - To jump back 8 seconds, press 7.
   - To jump forward 8 seconds, press 9.
   - To return to the Main Menu, press star once (*)
   - To return to the Main Menu, press star once (*)
NOTE: For customer service or product information, contact your installer at the number on the cover of this guide. If your installer is unavailable, visit our website at www.telephones.att.com/smb or call 1 (888) 916-2007. In Canada dial 1 (888) 883-2474.
