This quick start guide provides you with basic instructions only. For more complete instructions, refer to your User’s manual in the package or download it at www.telephones.att.com/manuals.

Telephone installation
1. Plug one end of the coiled handset cord into the handset jack on the left side of the telephone base. Plug the other end into the jack on the bottom of the handset.
2. Plug one end of the telephone line cord into the telephone line jack on the bottom of the telephone base. Route the telephone line cord through its slot. Plug the other end into a wall jack.
3. Plug the small end of the power adapter into the power jack on the bottom of the telephone base. Route the power adapter cord through the slots. Plug the large end into an electrical outlet not controlled by a wall switch.
4. Lift the handset or press ➔SPEAKER to check for a dial tone.
5. Adjust the angle of the screen to reach maximum visibility.

NOTES:
- Use only the power adapter provided with this product. To obtain a replacement, visit our website www.telephones.att.com or call 1 (800) 222-3111. In Canada, dial 1 (866) 288-4268.
- The power adapter is intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.
- You can use this telephone without the power adapter installed. In this case, you can only make or answer calls with the handset. For optimal performance, power your telephone with the supplied power adapter.
- When you first install your telephone, the system will prompt you to set the date and time, and set the outgoing announcement.

Quick reference guide

**Extra large tilt display**

Move the top of the display forward or backward to adjust the angle of the screen for maximum visibility.

**AUDIo AssisT™**

Voices will sound louder and clearer if you press AUDIO ASSIST while you are on a call using the handset.

**VOLUME**

During message playback or call screening, press to adjust the listening volume. While in idle mode, press to adjust the base ringer volume. While on a call, press to adjust the listening volume.

Initial settings

We recommend you program your telephone system before use. The following are a few examples of common features to set before using the telephone. Refer to the User’s manual for detailed instructions on setting all telephone features.

**Set date/time**

Set the date/time before using the answering system.
1. MENU ➔ ▼ or ▲ ➔ Set date/time ➔ SELECT.
2. Enter the month, day and year using the dialing keys ➔ SELECT.
3. Enter the hour and minute using the dialing keys.
4. ▼ or ▲ to choose AM or PM ➔ SELECT.

**Record your own announcement**

Your outgoing announcement plays when calls are answered by the answering system. The telephone has a default outgoing announcement, “Hello. Please leave a message after the tone.” You can use this announcement, or record your own.
1. MENU ➔ Answering sys ➔ SELECT.
2. Announcement ➔ SELECT.
3. Record new ➔ SELECT.
4. Facing the telephone base, record your announcement and press 5 to end recording.

**Speed dial**

Press in idle mode to display the speed dial list.

**Flash**

Press to put your current call on hold and take the new call when you receive a call waiting alert.
## Number of rings
You can set the answering system to answer an incoming call after two, three, four, five, six or seven rings. You can also select toll saver 2-4 or toll saver 4-6. If toll saver 2-4 is selected, the answering system answers a call after two rings when you have new messages, or after four rings when there are no new messages. If toll saver 4-6 is selected, the answering system answers a call after four rings when you have new messages, and after six rings when there are no new messages.

If you want the built-in answering system instead of the voicemail to answer a call, you should set the answering system to answer a call at least two rings before the voicemail is set to answer. Contact your telephone service provider for information on your voicemail settings.

1. MENU -> SELECT -> Answering sys.
2. ▼ or ▲ to choose 2, 3, 4, 5, 6, 7, >TOLL SAVER 2-4 or >TOLL SAVER 4-6 -> SELECT.

## Ringer volume
You can set the ringer volume level to one of four levels or turn the ringer off. When the ringer is off, Q appears on the screen.

Press VOLUME ▼ when the telephone is not in use.

1. MENU -> ▼ or ▲ -> Ringer volume -> SELECT.
2. ▼ or ▲ or ▲ VOLUME ▼ to sample each volume level -> SELECT.

## Language
If you want to change the display language, or you have accidentally changed the language and you want to switch it back to English, follow the steps below.

1. MENU -> ▼ five times -> SELECT -> ▼ or ▲ or ▲ English -> SELECT twice.

## Caller ID
This product supports caller ID services offered by most telephone service providers. The telephone stores caller ID information about the last 50 incoming calls.

### Missed (new) call indicator
When the telephone is in idle mode and has new or missed calls, its screen will show XX Missed calls. When the telephone is in idle mode, you can press and hold CANCEL to temporarily clear the missed call indicator and/or new message indicator.

### Review the caller ID history
1. Press CID to review the caller ID history in reverse chronological order starting with the most recent call.
2. ▼ or ▲ to scroll through the list.
3. Lift the handset or press SPEAKER to call the displayed entry or press CANCEL to exit.

## Directory
This telephone has a directory where you can store up to 25 telephone numbers and names.

### Create a new directory entry
1. MENU -> ▼ or ▲ or ▲ Directory -> SELECT.
2. ▼ or ▲ to highlight >Add contact -> SELECT.
3. Use the dialing keys to enter a telephone number -> SELECT -> Use the dialing keys to enter a name -> SELECT.

### Review and dial a directory entry
1. Press DIR.
2. ▼ or ▲ to browse through the directory, or press the dialing keys (0-9) to start a name search.
3. Lift the handset or press SPEAKER to call.

## Telephone operation

<table>
<thead>
<tr>
<th>Operation</th>
<th>Steps</th>

</tr>
<tr>
<td>Redial</td>
<td>Press REDIAL -&gt; Lift the handset or press SPEAKER.</td>
</tr>
<tr>
<td>Volume control</td>
<td>Press VOLUME ▼ to increase or decrease the listening volume during a call.</td>
</tr>
<tr>
<td>Call waiting</td>
<td>Press FLASH to put current call on hold and take the new call. Press again to switch back and forth between calls.</td>
</tr>
</tbody>
</table>

## Answering system

### Turn answering system on/off
Press ANS ON to turn the answering system on or off. When the answering system is turned on, it announces, "Calls will be answered," and the ANS ON light turns on. When the answering system is turned off, it announces, "Calls will not be answered," and the ANS ON light is off.

### Message alert
You can set the telephone to beep every 15 seconds when there are new messages.

1. MENU -> Answering sys -> SELECT.
2. ▼ or ▲ or ▲ Message alert -> SELECT.
3. ▼ or ▲ to choose On or Off -> SELECT.

### Call screening
Use this feature to choose whether incoming messages can be heard over the speaker when they are being recorded. If you turn call screening on, you hear the incoming message. While monitoring an incoming message, you can answer the call by lifting the handset or pressing SPEAKER.

1. MENU -> Answering sys -> SELECT.
2. ▼ or ▲ or ▲ Call screening -> SELECT.
3. ▼ or ▲ to choose On or Off -> SELECT.
