You can follow the voice guide to record your own announcement, set the number of rings and set the message alert tone.

1. MENU - OR - Answering sys – SELECT.
2. OR - Voice guide – SELECT.
3. Set up the answering system by inputting the designated numbers, as instructed.

Record your own announcement

Your outgoing announcement plays when calls are answered by the answering system. You can use the preset announcement to answer calls, or replace it with your own recorded announcement.

1. MENU - OR - Answering sys – SELECT.
2. SELECT to select Announcement.
3. SELECT to select Record ann.
4. Pressing the handset, record your announcement and press 5 for ending recording.

Number of rings

You can set the answering system to answer an incoming call after two, three, four, or five rings. You can also select toll saver. If you choose toll saver, the answering system answers a call after two rings when you have new messages, and after four rings when there are no new messages. This enables you to check for new messages and avoid paying unnecessary long distance charges if you are calling from out of your local area.

If you want the built-in answering system instead of the voicemail to answer a call, you should set the answering system to answer a call at two rings before the voicemail is set to answer. Contact your telephone service provider for information on your voicemail settings.

1. MENU - OR - Answering sys – SELECT.
2. OR - Ann sys setup – SELECT.
3. OR - # of rings – SELECT.
