Introducing Smart call blocker

Not familiar with Smart call blocker?

Want to know more?

Smart call blocker is an effective call screening tool, which allows your telephone system to screen all calls.

If you are not familiar with it or want to know more before you start, read on and learn how to change to call screening mode, and perform the necessary preparations before use.

§ Includes licensed Qaltel

* Use of Smart call blocker feature requires subscription of caller ID service.

So... what is Smart call blocker?

Smart call blocker filters robocalls and unwanted calls for you, while allowing welcome calls to get through.

If you set your phone to call screening (see Step 4 below), all incoming calls will be screened by the call blocker, which will automatically block unwanted calls and allow welcome calls as defined by your settings.

You can also set your call blocker to screen calls by asking the callers to record their names and press the pound key (#) before the calls are put through to you.

To add another entry in block list, repeat from step 3.

Setup

Directory

Enter and save telephone numbers of frequently called businesses, family members and friends, so that when they call, your telephone rings without having to go through the screening process.

Add contacts in your directory:

1. Press the [MENU] button on the handset.
2. Press [Q] or [p] to choose Directory, and then press [SELECT].
3. Press [Q] or [p] to choose Add contact, and then press [SELECT].
4. Enter a telephone number (up to 30 digits), and then press [SELECT].
5. Enter a name (up to 15 characters), and then press [SELECT].
6. To add another contact, repeat from step 3.

Block list

Add numbers that you want to prevent their calls from ringing through.

Add a block entry:

1. Press [CALL BLOCK] on the handset.
2. Press [Q] or [p] to choose Block list, and then press [SELECT].
3. Press [Q] or [p] to choose Add new entry, and then press [SELECT].
4. Enter a telephone number (up to 30 digits), and then press [SELECT].
5. Enter a name (up to 15 characters), and then press [SELECT].
6. To add another entry in block list, repeat from step 3.

Allow list

Add numbers that you want to always allow their calls to get through to you without having to go through the screening process.

Add an allow entry:

1. Press [CALL BLOCK] on the handset.
2. Press [Q] or [p] to choose Allow list, and then press [SELECT].
3. Press [Q] or [p] to choose Add new entry, and then press [SELECT].
4. Enter a telephone number (up to 30 digits), and then press [SELECT].
5. Enter a name (up to 15 characters), and then press [SELECT].
6. To add another entry in allow list, repeat from step 3.

Star name list

Add caller NAMES to your star name list to allow their calls to get through to you without having to go through the screening process.

Add a star name entry:

1. Press [CALL BLOCK] on the handset.
2. Press [Q] or [p] to choose Star name list, and then press [SELECT].
3. Press [Q] or [p] to choose Add new entry, and then press [SELECT].
4. Enter a name (up to 15 characters), and then press [SELECT].
5. To add another entry in star name list, repeat from step 3.

You are now ready to start using your telephone system with Smart call blocker.
**What if I want to...**

Choose the Smart call block configuration that best suits your needs.
