DECT 6.0 cordless telephone/answering system with caller ID/call waiting

Not familiar with Smart call blocker? Want to know more?

Smart call blocker is an effective call screening tool, which allows your phone system to screen ALL calls. If you are not familiar with it or want to know more before you start, read on and learn how to change to call screening mode*, and perform the necessary preparations before use.

* Use of Smart call blocker feature requires subscription of caller ID service.
§ Includes licensed Qaltel** technology.

§ Includes licenced Qaltel technology.

Move to Setup if you want to screen all unknown calls.

With Call screening active, Smart call blocker screens and filters all incoming calls from numbers or names that are not yet saved in your Directory, Allow list, Block list, or Star name list. You can easily add incoming phone numbers to your Allow list and Block list. This allows you to build up your lists of allowed and blocked numbers, and Smart call blocker will know how to deal with these calls when they come in again.

Setup

Directory
Enter and save telephone numbers of frequently called businesses, family members and friends, so that when they call, your telephone rings without having to go through the screening process.

Add contacts in your directory:
2. Press [a] or [q] to choose Directory, and then press [SELECT].
3. Press [a] or [q] to choose Add contact, and then press [SELECT].
4. Enter a telephone number (up to 30 digits), and then press [SELECT].
5. Enter a name (up to 15 characters), and then press [SELECT].
To add another contact, repeat from step 3.

Block list
Add numbers that you want to prevent their calls from ringing through.

Add a block entry:
1. Press [CALL BLOCK] on the handset.
2. Press [a] or [q] to choose Block list, and then press [SELECT].
3. Press [a] or [q] to choose Add new entry, and then press [SELECT].
4. Enter a telephone number (up to 30 digits), and then press [SELECT].
5. Enter a name (up to 15 characters), and then press [SELECT].
To add another entry in block list, repeat from step 3.

Allow list
Add numbers that you want to always allow their calls to get through to you without having to go through the screening process.

Add an allow entry:
1. Press [CALL BLOCK] on the handset.
2. Press [a] or [q] to choose Allow list, and then press [SELECT].
3. Press [a] or [q] to choose Add new entry, and then press [SELECT].
4. Enter a telephone number (up to 30 digits), and then press [SELECT].
5. Enter a name (up to 15 characters), and then press [SELECT].
To add another entry in allow list, repeat from step 3.

Star name list^ Add caller NAMES to your star name list to allow their calls to get through to you without having to go through the screening process.

Add a star name entry:
1. Press [CALL BLOCK] on the handset.
2. Press [a] or [q] to choose Star name list, and then press [SELECT].
3. Press [a] or [q] to choose Screening, and then press [SELECT].
4. Enter a name (up to 15 characters), and then press [SELECT].
To add another entry in star name list, repeat from step 3.

^ There are many organizations like schools, medical offices, and pharmacies that use robocalls to communicate important information to you. Robocall uses an outbound to deliver pre-recorded messages. By entering the name of the organization into the Star name list, it ensures these calls will ring through when you only know the caller names but not their numbers.

You are now ready to start using your telephone system with Smart call blocker.

To turn on call screening:
1. Press [CALL BLOCK] on the handset.
2. Press [a] or [q] to choose Calls w/o num., and then press [SELECT].
3. Press [a] or [q] to choose Blocking, and then press [SELECT].
4. Press [SELECT] again to select w/ Caller name.
5. Press [a] or [q] to choose Uncategorized, and then press [SELECT].
6. Press [a] or [q] to choose Screening, and then press [SELECT].
7. Press [SELECT] again to select w/ Caller name.
What if I want to...

Choose the Smart call block configuration that best suits your needs.

Scenarios

- I want to block any call from numbers not saved in the Directory. Allow list, or Star name list.
- I want to block any call that does not display a phone number.
- I want to block calls that do not display a phone number, and send any calls from numbers not saved in the Directory. Allow list, or Star name list to the answering system.
- I want to block all calls to ring and do not want to block any numbers.
- I want to block calls with caller ID, and display based on caller ID.
