Charger

Battery

Install the battery, as shown below. Charge your handset(s) before initial use. The battery is fully charged after ten hours of continuous charging.

Basic initial settings

Date and time

Note: Set the date/time before using the answering system.

1. MENU (=) ➔ Set date/time ➔ SELECT
2. Enter the month, day and year using the dialing keys ➔ SELECT
3. Enter the hour and minute using the dialing keys.
4. ➔ or to choose AM or PM ➔ SELECT.

Basic answering system setup via voice guide

You can follow the voice guide to record your own announcement, set the number of rings and the message alert tone.

1. MENU (=) ➔ Answering sys ➔ SELECT
2. ➔ or ➔ Voice guide ➔ SELECT.
3. ➔ or ➔ Record announcement ➔ SELECT.
4. Press the handset, record your announcement and press 5 to end recording.

Record your own announcement

Your outgoing announcement plays when calls are answered by the answering system. You can use the preset announcement to answer calls, or replace it with your own record.

You can use your own announcement instead of the voicemail to answer a call after two rings if you have new messages, and after four rings if there are no new messages. This enables you to check for new messages and avoid paying unnecessary long distance charges if you are calling from out of your local area.

If you want the built-in answering system instead of the voicemail to answer a call, you should set the answering system to answer a call after two rings if you have new messages, and after four rings if there are no new messages. This enables you to check for new messages and avoid paying unnecessary long distance charges if you are calling from out of your local area.

Number of rings

You can set the answering system to answer an incoming call after 2, 3, 4, 5, or 6 rings. You can also select toll saver. If you choose toll saver, the answering system answers a call after two rings if you have new messages, and after four rings if there are no new messages. This enables you to check for new messages and avoid paying unnecessary long distance charges if you are calling from out of your local area.

If you want the built-in answering system instead of the voicemail to answer a call if you have new messages, and after four rings if there are no new messages. This enables you to check for new messages and avoid paying unnecessary long distance charges if you are calling from out of your local area.
