Introducing Smart call blocker

So... what is Smart call blocker?

Smart call blocker filters robocalls and unwanted calls for you, allowing welcome callers to get through.

You can set up your lists of welcome callers and unwelcome callers. The Smart call blocker allows calls from your welcome callers to get through, and blocks calls from your unwelcome callers.

For other unknown calls, you can block, allow, or screen these calls, or forward unknown calls to the answering system.

With some easy configurations, you can set to only filter robocalls by asking the caller to press the pound key (#) before the calls are put through to you.

You can also set the Smart call blocker to screen calls by asking the callers to record their names and press the pound key (#). After your caller completes the request, your telephone ring and announces the caller’s name. You can then choose to block or answer the call, or you can forward the call to the answering system. If the caller hangs up or does not respond or record his/her name, the call is blocked from ringing through. When you add your welcome callers to your Directory or Allow list, they will bypass all screening and ring directly to your handsets.

Setup

Directory

Enter and save telephone numbers of frequently called businesses, family members and friends, so that when they call, your telephone rings without having to go through the screening process.

Add contacts in your directory:

2. Press [ ] to choose Directory, and then press [SELECT].
3. Press [ ] or [ ] to choose Add contact, and then press [SELECT].
4. Enter a telephone number (up to 30 digits), and then press [SELECT].
5. Enter a name (up to 15 characters), and then press [SELECT].

To add another contact, repeat from step 3.

Block list

Add numbers that you want to prevent their calls from ringing through.

Add a block entry:

1. Press [CALL BLOCK] on the handset.
2. Press [ ] or [ ] to choose Block list, and then press [SELECT].
3. Press [ ] or [ ] to choose Add new entry, and then press [SELECT].
4. Enter a telephone number (up to 30 digits), and then press [SELECT].
5. Enter a name (up to 15 characters), and then press [SELECT].

To add another entry in block list, repeat from step 3.

Allow list

Add numbers that you want to always allow their calls to get through to you without having to go through the screening process.

Add an allow entry:

1. Press [CALL BLOCK] on the handset.
2. Press [ ] or [ ] to choose Allow list, and then press [SELECT].
3. Press [ ] or [ ] to choose Add new entry, and then press [SELECT].
4. Enter a telephone number (up to 30 digits), and then press [SELECT].
5. Enter a name (up to 15 characters), and then press [SELECT].

To add another entry in allow list, repeat from step 3.

Star name list

Add caller NAMES to your star name list to allow their calls to get through to you without having to go through the screening process.

To add another entry in star name list, repeat from step 3.

Call screening mode

Not familiar with Smart call blocker?

Smart call blocker is an effective call screening tool, which allows your phone system to screen ALL calls. If you are not familiar with it or want to know more before you start, read on and learn how to change to call screening mode, and perform the necessary preparations before use.

With call screening active, Smart call blocker screens and filters unwanted calls from numbers or sources that are not pre-saved in your Directory or Allow list. This allows you to block all unwanted calls and keep only the welcome calls when they come in.

You are now ready to start using your telephone system with Smart call blocker.

To turn on call screening:

1. Press [CALL BLOCK] on the handset.
2. Press [ ] or [ ] to choose Set profile, and then press [SELECT].
3. Press [SELECT] again to choose Screen unknown.

Selecting the Screen unknown profile option will set your telephone to screen all unknown calls and ask for the caller names before putting the calls through to you.
If you want to... Choose the Smart call block configuration that best suits your needs.
