When the feature is on, and you have an incoming call, the handset will ring or vibrate (depending on the setting), the caller ID information will display on the telephone base or the caller ID screen, and the handset will also announce the name of the calling party if you have set it up (see display language section). Review the following steps to make sure you are using the feature correctly:

1. Press PHONE or SPEAKER on the telephone base.
2. Press the number of the desired handset or the telephone base.
3. Press the desired directory or Caller ID entry to call.

To turn Smart call blocker off:

1. Press MUTE/DELETE on the telephone base.
2. Enter the directory or Caller ID entry number.
3. Press SELECT.

In idle mode:

Press CALL BLOCK
- to call.
- Press SELECT when the desired entry appears.
- Press SELECT twice.

Adding an entry manually:

1. Press CALL BLOCK or MUTE/DELETE twice.
2. Enter the directory or Caller ID entry number.
3. Press SELECT.

Adding an entry to allow list:

1. Press CALL BLOCK or MUTE/DELETE twice.
2. Enter the directory or Caller ID entry number.
3. Press SELECT.
4. Press SELECT again.

When an incoming call is on hold, press CALL BLOCK or MUTE/DELETE twice to add the directory or Caller ID entry number to the list.

While monitoring an incoming message, you can answer the call by pressing the handset or selecting Call to add the directory or Caller ID entry number to the list.

Adding an entry to block list:

1. Press CALL BLOCK or MUTE/DELETE twice.
2. Enter the directory or Caller ID entry number.
3. Press SELECT.
4. Press SELECT again.

When an incoming call is on hold, press CALL BLOCK or MUTE/DELETE twice to add the directory or Caller ID entry number to the list.

While monitoring an incoming message, you can answer the call by pressing the handset or selecting Call to add the directory or Caller ID entry number to the list.

Smart call blocker*:

If you have subscribed to Caller ID service, then you use the Smart call blocker feature to filter incoming calls from unknown callers.

Turn Smart call blocker on or off:

Smart call blocker is turned on and all incoming calls are blocked. Press the desired directory or Caller ID entry to allow incoming calls from known callers.

Using a cordless handset or the telephone base:

1. Press CALL BLOCK or MUTE/DELETE twice.
2. Enter the directory or Caller ID entry number.
3. Press SELECT.

*This product supports Caller ID services offered by most telephone service providers. This feature requires Caller ID information of the last 10 incoming calls in the telephone base. This information is common to all devices.
