Call block
If you have subscribed to caller ID service, you can use the call block feature to reject certain calls automatically. The call block list can store up to 20 entries. The feature is only available on the telephone base.

**Operation Steps**
1. **Adding a call block entry**
   - Press MENU -> Select 4 Block -> SELECT.
   - Select a block list.
   - Press MENU -> Select 3 Add new entry -> SELECT.
   - Enter a telephone number up to 30 digits -> SELECT.
   - Enter a name up to 15 characters -> SELECT.
   - Press OFF to cancel or if the handset is in idle mode.

2. **Blocking calls without number**
   - Press MENU -> Select 4 Block -> SELECT.
   - Press 1 or select No list block or Block -> SELECT.

**Directory**
The directory can store up to 50 entries, which are shared by all system devices.

**Operation Steps**
1. **Adding an entry**
   - Press MENU -> Select 4 Directory -> SELECT.
   - Press 1 Add contact -> SELECT.
   - Enter a telephone number up to 30 digits -> SELECT.
   - Enter a name up to 15 characters -> SELECT.

2. **Searching/dialing an entry**
   - Press DIRECTORY to browse through the directory.
   - Or press the dialing keys (0-9) to enter the name.
   - Or press PHONE or SPEAKER on a handset to call.

**Volume control**
Press VOLUME to decrease or press VOLUME to increase the listening volume during a call.

**Call waiting (subscription required for this feature)**
Press FLASH on the handset or FLASH on the telephone base to put current call on hold or to take the new call; press again to switch back and forth between calls.

**Caller ID**
This product supports caller ID service offered by most telephone service providers. The telephone stores caller ID information of the last 50 incoming calls in the telephone base. This information is common to all devices.

**When a handset or the telephone base is in idle mode and has new or missed calls, its screen shows XX Missed calls**
You can erase the missed call indicator either by reviewing the call log one by one, or by pressing and holding CANCEL on the handset or CANCEL on the telephone base in idle mode.

**Review and dial a number in the call log**
1. **CID in idle mode**
   - Press 0 to scroll through the list.
   - PHONE or SPEAKER on the handset, or PHONE on the telephone base to call when the desired entry is displayed.

2. **Caller ID announcer**
You can hear the caller ID announcement and block call on your telephone base.

**Telephone answering system**
This feature is only available on the telephone base.

**Using the telephone base**
Press ANS sys setup to turn on the answering system on or off. If the answering system is turned on, it announces, "Call will be answered!" If the answering system is turned off, it announces, "Call will not be answered!" You can change the setting by pressing the corresponding keys and the message playback section to listen to the /PLAY button.

**Using the telephone base**
Press ANS sys setup to turn on the answering system on or off. If the answering system is turned on, it announces, "Call will be answered!" If the answering system is turned off, it announces, "Call will not be answered!"

**Message playback**
Using the telephone base:
Press Macro/PLAY when the telephone base is in idle mode.

**Using a handset:**
Press MENU twice when the handset is in idle mode.

**Options during playback**
