### Caller ID

This product supports caller ID services offered by most telephone service providers. The telephone stores caller ID information of the last 50 incoming calls in the telephone base. This information is common to all devices.

### Missed call indicator

When a handset or the telephone base is in idle mode and has new or missed calls, its screen shows XX Missed calls. You can erase the missed call indicator either by reviewing the call log one by one, or by pressing and holding F/CANCEL on the handset or CANCEL on the telephone base in idle mode.

Review and dial a number in the call log:

1. CID in idle mode -> # or * to scroll through the list.
2. When the desired entry is displayed, press PHONE or SPEAKER on the cordless handset to call. On the telephone base, lift the corded handset or press SPEAKER to call.

**Caller ID announce**

When this feature is on and you have an incoming call, the handset and/or base speaks “Call from...”, and the name of the caller based on the directory or caller ID information. You can turn this feature off for the base or each individual handset, or for all devices.

**Operation**
