To add another entry in star name list, repeat from step 4.

With call screening active, Smart call blocker screens and blocks all incoming home calls from numbers or names that are not yet entered in your block list. Allow and block your list of allowed and blocked numbers and caller names at any time. You can easily add incoming phone number to your Allow list and block number to your Block list.

You have also been able to block unwanted calls from friends, family, and your pharmacy:

You can use your Smart call blocker to block unwanted calls from the unknown home calls:

1. Unknown home calls

2. Family and friends

3. Schools and pharmacies

4. Robocalls and telemarketers

5. Uncategorized calls

6. Calls without numbers

7. Calls without caller ID

8. Numbers in your block list

9. Unwelcome calls

10. Calls with caller names (e.g. your pharmacy)

11. In Star name list*

* Use of Smart call blocker feature requires subscription of caller ID service. It includes licensed CallerID technology. Issue 3.0 07/17.

With call screening active, a list of Smart call blocker is applicable to home calls only. All incoming cell calls will get through and ring.

The screening feature of Smart call blocker is applicable to home calls only. All incoming cell calls will get through and ring.
