This quick start guide provides you with basic instructions only. For more complete instructions, refer to your Abridged user’s manual provided in the package, or see the online Complete user’s manual at www.telephones.att.com/manuals.

Battery installation
Install the battery, as shown below. Charge your handset(s) before initial use. The battery is fully charged after 10 hours of continuous charging.

1. Plug the battery connector securely into the socket inside the handset battery compartment. Insert the supplied battery with the label THIS SIDE UP facing up, as indicated.

2. Align the cover flat against the battery compartment, then slide it upwards until it clicks into place.

3. Charge the handset by placing it face forward in the telephone base or charger.

Charger installation
Plug the power adapter into an electrical outlet not controlled by a wall switch.

Plug the power cord and telephone line cord into the jack.

Route the cords through the slots.

Caller ID
This product supports caller ID services offered by most telephone service providers. The telephone stores caller ID information for the last 50 incoming calls in the telephone base. This information is common to all handsets.

Missed call indicator
When a handset is in idle mode and has new or missed calls, its screen shows XX Missed calls.
You can erase the missed call indicator either by reviewing the call log one by one, or by pressing and holding CANCEL on the handset in idle mode.

Review and dial a number in the call log
1. CID in idle mode -> ▼ or ► to scroll through the list.
2. PHONE or #/SPEAKER to call when the desired entry is displayed.

Directory
The directory can store up to 50 entries, which are shared by all system handsets.
