Introducing Smart call blocker

So... what is Smart call blocker?
Smart call blocker filters robocalls and unwanted calls for you, while allowing welcome calls to get through.

Setup
Enter and save telephone numbers of frequently called businesses, family members and friends, so that when they call, your telephone rings without having to go through the screening process.

Block list
Add numbers that you want to prevent their calls from ringing through.
1. Press CALL BLOCK on the handset.
2. Press a number (1-5) to choose Block list, and then press SELECT.
3. Press SELECT again to choose Add new entry, and then press SELECT.
4. Enter a telephone number (up to 30 digits), and then press SELECT.
5. Enter a name (up to 15 characters), and then press SELECT.
6. To add another entry in block list, repeat from step 3.

Unknown calls
- Numbers in your block list
- Callers with caller ID
- Calls without caller ID
- Numbers or names that are NOT found in your:
- Directory
- Allow list
- Block list

Welcome calls
- Family and friends with numbers:
- In Directory
- In Allow list
- Robocalls with caller names (e.g. your pharmacy)
- In Star name list

Unwelcome calls
- Robocalls and telemarketing calls
- Businesses, family and friends
- Schools and pharmacies
- Callers with names (e.g. your pharmacy)
- In Star name list

With Call screening active, Smart call blocker screens and blocks all ringing home calls from numbers or names that you have set up in your block list.

6. To add another entry in allow list, repeat from step 3.

Call rejected

You are now ready to start using your telephone system with Smart call blocker.

Selecting the Screen unknown profile option will alert your telephone to screen all unknown home calls and ask for the caller’s names before putting the calls through to you.

7. If you want to allow or block a call, then press CALL BLOCK to allow or block it. Read on and learn how to add number in the block list.

8. If Smart call blocker is set to Screen unknown, then the caller will be blocked. Otherwise, calls will not be screened.

9. Make sure you have not turned off Smart call blocker. Otherwise, calls will not be screened.

10. If you are not familiar with it or want to know more before you start, read on and learn how to change to call blocking mode, and perform the necessary preparations before use.

11. Smart call blocker allows you to build up your lists of allowed and blocked numbers, and Smart call blocker will know how to deal with these calls when they come in again.

12. With Smart call blocker, feature requires subscription of caller ID service.

13. Includes licensed Qaltel technology.
