**Introducing Smart call blocker**

**Not familiar with Smart call blocker?**

**Want to know more?**

Smart call blocker is an effective call screening tool, which allows your phone system to screen ALL home calls.¹ If you are not familiar with it or want to know more before you start, read on and learn how to change to call screening mode, and perform the necessary preparations before use.

⁺ The screening feature of Smart call blocker is applicable to home calls only. All incoming cell calls will ring through and ring.

If you want to block a cell call, add the number to the block list. Read on and learn how to add number in the block list.

---

**Setup**

**Directory**

Enter and save telephone numbers of frequently called businesses, family members, and friends, so that when they call, your telephone rings without having to go through the screening process.

**Add contacts in your directory:**

1. Press MENU on the handset.
2. Press the CID or ADR to choose Directory, and then press SELECT.
3. Press SELECT to add a new contact entry, and then press SELECT.
4. Enter a telephone number (up to 30 digits), and then press SELECT.
5. Enter a name (up to 15 characters), and then press SELECT.
6. To add another contact, repeat from step 3.

**Block call numbers that have been added to your block list, so that when they call, your telephone rings without having to go through the screening process.**

**Add contacts in your directory:**

1. Press CALL BLOCK on the handset.
2. Press CID or ADR to choose Block list, and then press SELECT.
3. Press the CID or ADR to choose Add new entry, and then press SELECT.
4. Enter a telephone number (up to 30 digits), and then press SELECT.
5. Enter a name (up to 15 characters), and then press SELECT.
6. To add another entry in block list, repeat from step 3.

**Add numbers that you want to always allow their calls to get through to you without having to go through the screening process.**

**Add an allow entry:**

1. Press CALL BLOCK on the handset.
2. Press CID or ADR to choose Allow list, and then press SELECT.
3. Press CID or ADR to choose Add new entry, and then press SELECT.
4. Enter a telephone number (up to 30 digits), and then press SELECT.
5. Enter a name (up to 15 characters), and then press SELECT.
6. To add another entry in allow list, repeat from step 3.

**Star name list**

Add caller NAMES to your star name list to allow their calls to get through to you without having to go through the screening process.**

**Add a star name entry:**

1. Press CALL BLOCK on the handset.
2. Press CID or ADR to choose Star name list, and then press SELECT.
3. Press CID or ADR to choose Add new entry, and then press SELECT.
4. Enter a name (up to 15 characters), and then press SELECT.
5. To add another entry in star name list, repeat from step 3.

---

**You are now ready to start using your telephone system with Smart call blocker.**

**To turn off call screening:**

1. Press CALL BLOCK on the handset.
2. Press CID or ADR to choose Set profile, and then press SELECT.
3. Press SELECT again to choose Screen unknown.

Selecting the Screen unknown profile will allow your telephone to screen all unknown home calls and ask for the callers’ names before putting the calls through to you.

- Make sure you have not turned off Smart call blocker. Otherwise, calls will not be screened.

---

**Call screening active, Smart call blocker screen and TTY alarm ringing. Call number on screen shows that no one yet called through your line (Block list). Allow list: Your line. You can easily add incoming phone number to your Allow list and block list. You allow parties on your list of allowed callers to ring through to you and block others. You can also set the Smart call blocker to screen home calls by asking the callers to press the pound key before the calls are put through to you.**

**With some easy configurations, you can set to only filter robocalls on the home line by asking the callers to press the pound key before the calls are put through to you.**

**So... what is Smart call blocker?**

Smart call blocker filters robocalls and unwanted calls for you, while allowing welcome calls to get through.

**Smart call blocker allows calls from your welcome callers to get through, and it blocks robocalls and telemarketing calls.**

**You can set up your lists of welcome callers and unwelcome callers. The Smart call blocker allows calls from your welcome callers to get through, and it blocks robocalls and telemarketing calls.**

Use voice guide to set Smart call blocker

Right after installing your phone, the voice guide will provide you a quick and easy way to configure Smart call blocker.

After you install your telephone, the handset will prompt you to set the date and time. After the date and time setting is done or skipped, the handset then prompts if you want to set Smart call blocker. 「Hello! This voice guide will assist you with the basic setup of Smart call blocker.」

Scenarios (1) and (2) are very easy to set up with the voice guide. Just press 1 or 2 on the handset when prompted.

Press 1 if you want to screen home calls with telephone numbers that are not saved in your Directory, Allow list, or Star name list; or

Press 2 if you do not want to screen calls, and want to allow all incoming calls to get through.

For complete operation instructions of Smart call blocker, read the Complete user’s manual of your telephone system.
