Steps
1. Press [ ] on the telephone base.

2. Enter the number up to 30 digits -> NEXT.

3. Enter a number up to 15 characters -> SAVE.

4. Press [ ] or [ ] on the telephone base.

About answering system and voicemail
Your telephone supports voicemail for two different types of voice messages: those left on the built-in answering system and those left at your telephone service provider’s voicemail. To listen to messages recorded on the built-in answering system, refer to the Message playback section. To listen to voicemail, contact your telephone service provider for more information.

Answering system
The answering system must be turned on to answer and record messages. Using a cordless handset:
1. MENU -> ANSWERING SYS -> SELECT.

2. Press [ ] or [ ] on the telephone base.

3. Press [ ] or [ ] on the telephone base.

4. Press [ ] or [ ] on the telephone base.

5. Press [ ] or [ ] on the telephone base.

About caller ID
Your telephone supports caller ID services offered by most telephone service providers. The telephone stores caller ID information of the last 50 incoming calls in the telephone base. This information is common to all devices.

Missed call information
When a handset or the telephone base is in idle mode and has new or missed calls, its screen shows LEXED or MISSED. Your telephone automatically reviews the calling list once you enter the idle mode. If you press and hold [ ] on the handset or [ ] on the telephone base, the missed call list is displayed.

Message alert tone
This feature is used to hear alert tones. Callers can be placed on hold, or the telephone base can alert you that a call is waiting.

Voice mail message
This feature is used to place a call on hold to check voice mail.

About missed call
When you are not at home, your telephone can store up to 50 entries, which are shared by all system devices.
