Answering system
About answering system and voicemail
Your telephone has separate indicators for two different types of voice messages: those left on the built-in answering system and those left at your telephone service provider's voicemail. To listen to messages recorded on the built-in answering system, refer to the message playback section on the following page. To listen to voicemail, contact your telephone service provider for more information.

Turn answering system on/off
The answering system must be turned on to answer and record messages.
