Introducing Smart call blocker*

So... what is Smart call blocker?

Smart call blocker filters robocalls and unwanted calls for you, allowing welcome calls to get through.

You can set up your lists of welcome callers and unwanted callers. The Smart call blocker allows calls from your welcome callers to get through, and it blocks calls from your unwanted callers.

For other unknown home calls, you can allow, block, or screen these calls, or forward these calls to the answering system.

With some easy configurations, you can set to only filter robocalls on the home line by asking the callers to press the pound key (#) before the calls are put through to you.

You can also set the Smart call blocker to screen home calls by asking the callers to provide their names and press the pound key (#). After the caller completes the request, your telephone rings and announces the caller’s name. You can then choose to block or unblock the caller, or you can forward these calls to the answering system.

If the caller hangs up, or does not respond or provide their name, the call is blocked from ringing through. When you add your welcome callers to your Allow list, you will bypass all screening and ring directly to your handsets.

**Use of Smart call blocker feature requires subscription of caller ID service.

Issue 3.0 12/17.

Setup

Directory

Enter and save telephone numbers of frequently called businesses, family members, and friends, so that when they call, your telephone rings without having to go through the screening process.

Add contacts in your directory:

1. Press CALL BLOCK on the handset or telephone base.
2. Press CID or DIR to choose Directory, and then press SELECT.
3. Press F, G, or H to search.
4. Press p to choose Add contact.
5. Enter a name (up to 15 characters), and then press SAVE.
6. Enter a telephone number (up to 30 digits), and then press SAVE.
7. Enter a name (up to 15 characters), and then press SAVE.

To add another contact, repeat from step 4.

Block list

Add numbers that you want to prevent their calls from ringing through:

- Call numbers with numbers that have been added to your block list - Numbers in your block list - Numbers in your star list

To add another entry in block list, repeat from step 3.

Allow list

Add numbers that you want to always allow their calls to get through to you without having to go through the screening process.

Add an allow entry:

1. Press CALL BLOCK on the handset or telephone base.
2. Press CID or DIR to choose Allow list, and then press SELECT.
3. Enter a name (up to 15 characters), and then press SAVE or press to select.

To add another entry in allow list, repeat from step 3.

Star name list

Add caller NAMES to your star name list to allow their calls to get through to you without having to go through the screening process.

Add a star name entry:

1. Press CALL BLOCK on the handset or telephone base.
2. Press CID or DIR to choose Star name list, and then press SELECT.
3. Enter a name (up to 15 characters), and then press SAVE or press to select.

To add another entry in star name list, repeat from step 3.

With Caller ID technology.

You are now ready to start using your telephone system with Smart call blocker.

To turn on call screening:

1. Press CALL BLOCK on the handset or telephone base.
2. Press CID or DIR to choose Calls w/o caller ID, and then press SELECT.
3. Press CID or DIR to choose Screening, and then press SELECT.
4. Enter a name (up to 15 characters), and then press SAVE.

To turn off call screening:

1. Press CALL BLOCK on the handset or telephone base.
2. Press CID or DIR to choose Calls w/o caller ID, and then press SELECT.
3. Press CID or DIR to choose Screening, and then press SELECT.
4. Press P to select w/ Caller name, and then press SELECT.

Use voice guide to set Smart call blocker.

After installing your phone, the handset and the telephone base will prompt you to set the date and time. When this is done or skipped, the handset and the telephone base then prompts if you want to set Smart call blocker. - "Hello! This voice guide will assist you with the basic setup of Smart call blocker. Scenarios (1), (2) and (3) are very easy to set up with the voice guide. Just press 1, 2 or 3 on the handset or on the telephone base when prompted.

- Press 1 if you want to screen home calls with telephone numbers that are not saved in your Directory, Allow list, or Star name list;
- Press 2 if you want to screen home calls that do not display a telephone number; or
- Press 3 if you do not want to screen calls and want to allow all incoming calls to get through.

Note: To restore the voice guide:
1. Press CALL BLOCK on the telephone base.
2. Press # or * to choose Voice guide, and then press SELECT.
